OWN A JEEP®?

The toughest four letter word on wheels. Are you looking for a parts source rugged enough to match your off the beaten path sense of adventure? With more than 15,000 unique part numbers from brands like Omix-ADA®, Rugged Ridge®, Alloy USA®, Outland Automotive®, ORV Suspension and Precision Gear, consider this your trail guide to the 4x4 of your dreams. A go anywhere, anytime, in any weather vehicle. Go ahead and smile, because it's going to take a lot of courage not to be cocky when you own a Jeep® like that.

WHO WE ARE

Omix-ADA is more than just a parts manufacturer, we're a community of enthusiasts dedicated to producing the finest in off-road solutions. Our products have been propelling four-wheel drive vehicles down highways, back roads and over the world's roughest terrain for over a decade. Omix's team of engineers have developed, tested and trail ridden thousands of new products until they were perfected for you.

**Did we mention we're Jeep® enthusiasts?
Just take a look at some of our rigs.**

Why have we put so much time and energy into developing the most expansive collection of Jeep® parts available under one roof? Because the items bearing our logo are more than just parts, they are built with a legacy and heritage in mind. This is why we have been authorized to use the "MOPAR Authentic Restoration" and "MOPAR Official Licensed Product" logos for the more than 30 licensed parts we produce. We take pride in being one of the few manufacturers strong enough to stand behind the legendary Jeep® name.

AWARD WINNING DESIGNS

More than 2,500 new products were displayed at the recent SEMA Show. A group of 50 journalists and industry experts were charged with the task of judging the most innovative new products introduced into the automotive industry. As the judges tallied their scores, Omix-ADA emerged as one of the most decorated companies in the off-road sector.

The Omix-ADA® Group of Companies:

Omix-ADA®: The parent company brand that offers thousands of parts and components for all Jeep® vehicles built from 1941 to current! Omix hard parts, undercarriage parts and body parts are all designed to bring your Jeep® back to life. Omix parts can be found in a separate catalog which your distributor can easily provide or feel free to go online to www.omix-ada.com. If there is a part you need for your Jeep®, there is an excellent chance that Omix can take care of you! www.omix-ada.com

Rugged Ridge® Accessories for Jeep®: Featuring the most complete line of high quality functional accessories for Jeep® vehicles. Rugged Ridge products can take you from street to trail and look good doing it. From beautiful polished stainless steel bolt on accessories to hard core off road protection and performance; Rugged Ridge has you covered. (pages 3-94)

Alloy USA®: A full line of the highest quality, high performance off road and racing alloy axles, and ring & pinions developed for the serious off road enthusiast by off road enthusiasts. Alloy USA products feature premium alloy steel for strength and durability during your hard core adventures. Each Alloy USA product includes an industry leading 3, 5 or 10 year limited warranty for the peace of mind and confidence you demand. (pages 117-128)

Outland®: If you own a truck or SUV, you need Outland Accessories. Outland features a full line of truck/SUV Tube Steps, Bull Bars, Consoles and other functional accessories to make your rig look great and perform even better. (pages 105-112)

ORV™ Suspensions: Designed by Jeep® enthusiasts for Jeep® vehicles! ORV offers a full line of heavy duty suspension options to upgrade your vehicles off road capabilities. Each kit is specially designed for the Jeep® enthusiast and can be custom tailored for your particular needs. Get the ORV advantage (pages 95-104)

Precision Gear®: Drive train engineering perfected! Precision Gear offers a full line of heavy duty up-graded ring and pinion sets to make your vehicle run as efficiently as possible. Precision Gear products are made from only the highest quality materials and designs and offers a full range of applications for both on and off road vehicles. From street to trail, when only the best will do, look to Precision Gear Ring and Pinion sets! www.precisiongear.com

Please see pages 95, 104, 131, and inside back cover for important safety and warranty information for the products offered by the Omix-ADA® Group of Companies.

IF YOU KNOW JEEP®, YOU KNOW OMIX-ADA® /RUGGED RIDGE®!

XHD Modular Bumper System

The most advanced, toughest, most flexible bumper system ever created!

No other bumper can give your Jeep® this many looks. Modular design provides dozens of different looks and styles. You can build the exact bumper of your choice! Custom designed for the 1976-2010 Jeep® Wrangler & CJ, each component maximizes the oversized look of the vehicle. All components are constructed of heavy-duty textured black powder coat steel with a tough E-Coat under-coating or polished, no rust, prime 304 stainless steel for the ultimate look! These tough finishes will provide years of heavy-duty use. Matching rear bumpers are available for a complete look.

NEW!

Looking for an easily accessible yet secure storage solution for your Wrangler? XHD Storage Ends from Rugged Ridge turn your bumper into a stylish watertight storage vault. The XHD Storage ends are a great place to stow recovery gear and other valuables. Beefy steel construction, a watertight seal, and lockable lid helps keep mud and water out and your gear in.

NEW!

XHD Tube ends

Add tube ends to your XHD bumper for added protection and a classic OE look! XHD Tube Ends offer wraparound protection and added clearance for oversized tires. Available in either textured black powder coat or polished 304 stainless steel for a long lasting durable finish.

* Includes Stainless D-Rings ** Will not work with Warn Power Plant Winch.

JK

XHD Bumper System

Build the Ultimate XHD!

Need more front-end protection? No problem! Need to mount up a quartet of lights to chase away the night? No problem! Need more clearance for rock crawling? No problem! Now available in polished stainless steel for the ultimate look! Only the XHD Bumper from Rugged Ridge can give you this many options while providing the quality you demand.

STEP 1 Select Your Base - Upgrade Any Time

The XHD Short Base comes in two designs; Integrated Winch Mount for use with almost any aftermarket winch (including the new Warn Power Plant with optional mounting blocks #11540.15) and for the 2007-10 Wrangler, a Light Mount Base with two light mounting locations. The Short Base attaches quickly with two enclosed D-Ring mounting brackets. This eight bolt frame mount design provides the toughest bumper attachment found anywhere while creating two overbuilt pull points. The 76-06 CJ/YJ/TJ XHD matches the look and utility of the 07-10 JK XHD but does not include the fog light cutouts and is only available with a winch mount. This bumper mounts close in on the frame rails, drawing the bumper closer to the body allowing for an increased approach angle. The narrow overall width gives enormous clearance for the front tires. Each JK Short Base includes two protected cut outs for your JK's factory fog lamps. All Short Bases includes side filler plates to close off the ends for a finished look.

STEP 2 Select Your Ends - Turn Your Short Base Into A Full Size Bumper

Standard ends easily mount to any Short Base with six oversized 12mm bolts to turn your short bumper into a full size bumper design. Each Standard end is recessed to provide the ultimate seamless fit. Storage ends and tube ends also available, more details on page 4.

STEP 3 Select Your Tubes - Tough Tubular Options Provide Off Road Protection

Add on a durable .120 wall tubular RRC mount, Stinger or Hoop Override to create the ultimate off-road bumper. These are some tough tubes! The Stinger and RRC mounts use a unique D-ring attachment so you will need separate optional D-rings (part no. 11235.01). The enclosed HD D-rings on the short base will not be used with these two tubular options.

Why two different RRC Mounts? For 1976-2006 CJ, YJ and TJ's with Rugged Ridge 7" oversize fender flares, the JK RRC Mount is wider and matches the look of the wider flares. For CJ's, YJ's and TJ's with stock width fender flares, the 11540.48 RRC Mount is designed to match the width of the factory flares.

XHD Bumpers Continued on Next Page...

It's Over 100 Bumpers In One!

That's right, over 100 different bumpers! You won't find a more versatile bumper system. Go from hardcore to street savvy with just a few hand tools.

Xtreme Heavy-duty (XHD) Rear Bumper System For 2007-10 Wrangler

Make the most of your rear bumper with our XHD Rear Bumper System. Features easy installation, amazing looks and two reinforced heavy-duty D-Ring attachment points. Special "inner mounting plate" provides an extremely secure mounting point - strong enough for off-road use! The two-piece design allows use with and without tire carrier options. Heavy-duty powder coated steel design looks great but is extremely tough. Mount on the optional Tire Carrier and you can hold up to a 35" tire.

11546.22

XHD Tire Carrier Mount For 2007-10 Wrangler

The perfect addition to the XHD rear bumper is the matching XHD Tire Carrier Mount. The latch uses a sturdy locking mechanism for security and a tough appearance. Our engineers have gone to great lengths to make this the quietest tire carrier on the market, no more rattling! The massive hinge pivots on a heavy-duty roller bearing and supports up to a 35" tire. A multi-position locking pin mechanism keeps the arm in the open position when you need to open the tailgate, even on the steepest grade. The XHD Tire Carrier Mount attaches to the XHD Rear Bumper using the D-ring mounts for a solid foundation.

Tire Carrier Linkage

Has opening your rear tailgate become a burden since you added a swing out tire carrier? Has it become easier to crawl over the rear seat, to grab your gear, than hassling with the tire carrier? The Rugged Ridge Tire Carrier Linkage Kit eliminates the issue and makes accessing the cargo area quick and painless. Once installed the linkage mates the tire carrier to the tailgate, so both open in a single fluid movement. The Tire Carrier Linkage is designed to work with Rugged Ridge XHD, RRC and Rock Crawling rear bumpers and tire carriers, but will also work with most other aftermarket tire carriers. No drilling is required to mount the linkage to the tailgate, but some minor drilling is required to mount the linkage to the tire carrier.

RRC Rock Crawling Bumpers

Introducing the toughest, most durable off-road tube bumpers ever made! The Rugged Ridge Rock Crawling Bumpers (RRC) feature heavy-duty .120 wall 2" steel tubing treated with a special "E-Coating" and then dual stage powder-coated to ensure long life and a no-rust finish. These overbuilt tube bumpers not only look good but they are built to last! All RRC designs have been developed with true off-road enthusiasts in mind. From the reinforced welds to the built-in D-ring attachments, these bumpers and side guards are built to take what ever the trail throws at you.

RRC Front Grille Guards

The RRC Front Grille Guard is an easy to install front bumper system that offers an expanded opening for use with a winch (winch plate not included) or with up to four off-road lights. The RRC side supports elevate the tube upwards to provide fender protection while not altering the side clearance. Two reinforced D-ring attachments allow for easy use of optional D-rings (part no. 11235.01).

(1) Including Wrangler Unlimited

RRC Rear Bumpers

Rugged Ridge offers two RRC bumper options for the rear of your Jeep®. Both options work off a similar frame mounted platform that features a heavy-duty grid like system with raised sides for the ultimate protection and greatest ground clearance. All RRC Rear Bumpers also feature a reinforced hitch box that is designed for off-road accessories (not designed or rated for towing. Use only for accessories). The heavy-duty rear tire carrier model mounts your tire off the rear bumper taking the load off your tailgate. With a reinforced grease fitting and special latching mechanism, this tire carrier is capable of holding up to a 35" tire.

Tire Carrier Recovery (TCR) Bag

The TCR bag has been designed to mount to Rugged Ridge RRC, XHD & Classic rear tire carrier bumpers. This bag allows the storage of all your recovery gear between the A-frame uprights on your rear tire carrier. Constructed of weather resistant material & features a zipper flap to help protect your gear from the environment. Attaches easily with 4 heavy-duty nylon straps that allow for quick removal and transport.

RRC Side Armor

Keep your rocker panels from being beaten to a pulp on the trail with Rugged Ridge's Side Armor. Built from heavy-duty 2" x 0.120" black texture powder coated steel tubing, these guards will take the beating that was meant for your sheet metal. JK models feature a simple bolt-on design that utilizes existing body mount locations for a secure, rattle free installation. YJ and TJ models require drilling. The black texture finish resists scratches and gives a slip-resistant surface for door entry. Sold as a pair and includes all necessary installation hardware.

Front Tube Bumpers For 2007-10 Wranglers

11561.10 Front Bumper, Textured Black w/ Winch Cut-Out, 07-10 Wrangler

Rugged Ridge Bumpers and Side Tube Steps have been engineered to the industry's most exacting specifications. All powder coated Rugged Ridge bumper products are "E-coated" to ensure a no rust finish. Rugged Ridge Bumpers and Side Steps can take small rock chips and still maintain their rust protection. All Rugged Ridge Front and Rear Bumpers feature smooth ground welds for an unbelievable look and further rust protection. This exclusive smooth grind process virtually eliminates small weld "pockets" that never seem to get full paint coverage and tend to rust over time. Each front bumper has two welded light tabs to easily mount off-road lighting. Need to mount a winch on your Jeep®? The winch mount version of the Rugged Ridge Front Tube Bumper features a special winch cut out to clear the roller fairlead. Finally, all Rugged Ridge Bumpers feature welded end caps rather than plastic end caps.

JK Stubby Tube Bumper

Rugged Ridge has taken their industry leading Front Tube Bumper and re-designed the ends to make the ultimate high clearance off-road winch bumper. This unique design has a built-in winch mount and special cut-outs for the JK Wrangler factory fog lamps. Like our regular tube bumper, we have cut into the front tubing allowing the bumper to "hug" the front end of the Jeep. Each bumper includes durable welded end caps and polished smooth welds for the ultimate in durability. NEW: Special inside pre-coat eliminates any chance of interior rusting. A Rugged Ridge Exclusive!

Front Tube Bumpers For 1976-06 CJ, Wranglers & Cherokee

Rear Tube Bumpers for 1955-2006 Jeep®

Rear Bumpers have a larger 17" rear opening allowing the use of oversized tires (up to 31") on the factory spare tire mount. This is a Rugged Ridge exclusive! Rugged Ridge Rear Tube Bumpers also feature an frame mounted hitch option that allows for lightweight towing (2,000lb towing weight, 200lb tongue weight capacity). Most other rear tube bumpers with integrated hitch boxes do not recommend towing, therefore making the hitch box virtually useless.

Rear Tube Bumper For 2007-10 Jeep® Wrangler

Get the off-road look with a Rugged Ridge Tube Bumper! Each bumper has smooth ground welds, welded end caps (not plastic end caps!) and the unique style only available from Rugged Ridge. Center tire cut-out allows for larger tires while still keeping that off-road look, accommodates tire sizes up to 35". Each rear tube bumper includes a special UV treated textured plastic filler plate to fill in the gap between the body and the bumper, a Rugged Ridge exclusive.

Heavy-duty Rock Crawling Bumpers

11545.01 Heavy-Duty Front Rock Crawling Bumper

11546.01 Heavy-Duty Off-Road Rear Bumper, Black

The front bumper is a winch ready design that can accommodate any winch (winch mounting plate not included). E-Coat undercoating with a powder coat finish for the ultimate in rust protection and durability. Two welded D-ring tabs allow for easy installation of optional D-rings providing a secure pulling point. Sloped ends allow for greater off-road clearance and a great look. Rear Bumper has an accessory hitch box (not designed for towing) to mount optional accessories. This tough bumper set can take what the trail throws at you!

CAUTION: Receiver not designed or rated for towing. Use only for accessories (bike rack, etc.).

Heavy-Duty Bumper w/Front Armor

Looking for that over-built extra tough look for your Jeep®? This exciting new winch ready bumper provides all you could want and more. Constructed of durable powder coat painted steel plate with rugged 2"x.120 wall tubing, this bumper has what it takes for rough and tumble off-road use. With a pre-cut front section and mounting points for a roller fairlead or Hawes fairlead, this bumper will accommodate most winches. Two welded D-ring tabs allow for ease installation of optional D-rings providing a secure pulling point. Trail tested, this is a great front bumper!

Classic Rock Crawling Rear Bumpers

Rugged Ridge offers two Classic options for the rear of your Jeep®. Both options work off a similar frame mounted platform that features an over built steel design with raised sides for the ultimate protection and greatest ground clearance. All Classic Rear Bumpers also feature a reinforced hitch box that is designed for off-road accessories (not designed for towing). The heavy-duty rear tire carrier model mounts your tire off the rear bumper taking the load off your tailgate. With a reinforced grease fitting and special latching mechanism, this tire carrier is capable of holding up to a 35" oversized tire.

Side Tube Steps

07-10 WRANGLER MODELS HAVE 3 TUBE STEP SIZES TO CHOOSE FROM:

Complete the look with a set of Rugged Ridge tubular tough duty side steps. Available in 3" round, 4" round, and 4.25" oval diameter sizes. The large 4.25" oval and 4" round tubes provide a much cleaner look and are not "dwarfed" by oversized tires and oversized body style features of the 2007-10 Wrangler. Rugged Ridge Stainless Tube Steps feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for a Rugged Ridge step is longer and deeper pulling out the deepest shine from the steel. A true "deep polish"! Rugged Ridge painted steel Tube Steps feature special E-coated, .07" wall steel that is "thick source" powder coated for a tough chip resistant finish. The special E-coat undercoating provides double rust protection as it bonds to the metal creating a protective layer found nowhere else. All Rugged Ridge Tube steps feature a truly custom fit with installation brackets constructed of durable 3/16" powder coated steel for long life and years of flex-free use. Each Tube Step features special UV treated no-slip step pads with 5 mounting pins. These step pads are preinstalled on top of the tube - no exposed metal to rust. All 2007-10 Wrangler models are no drill designs. 1976-06 models feature frame mount design which may require drilling.

Whether you want to dress it up flashy or keep it subtle, Rugged Ridge has a tube step style just for you. Why settle for only one tube style when Rugged Ridge offers so much more?

All-Terrain Flat Fender Flares

Now, with the NEW All-Terrain Flat Fender Flares from Rugged Ridge you can add a bigger tire option for a true off road look. You can also use in combination with a suspension lift for maximum off road performance. These exciting new flares are out-of-the-box ready to turn your street Jeep into an off road machine. By removing your original flares and replacing them with these high clearance designs, you can run larger tires without interference from the flare. The ability to run a larger tire with little or no suspension lift means a "lower center of gravity" making your JK more stable, yet you still get greater ground clearance necessary for off road. With 1.5 inches less coverage in the front and 1 inch less in the rear these flares are slightly narrower than factory, yet still maintain proper tire coverage and aggressive looks. Constructed of a flexible UV treated high impact thermoplastic, these flares are designed for the trail and create a whole new look for your JK. Easy to install, these flares replace your factory flares, attaching to the factory mounting points with no drilling. Simply remove your original flares and add on the All Terrain flares. The kit also includes easy to install mounting brackets that allow you to relocate and use the existing factory side marker lights. The All Terrain Flat Fender Flare is the hottest looking, most functional Off Road Flare available for your JK! Finally, because no cutting or drilling is required, if you ever want to switch back to your original factory flares, there's no problem!

All Terrain Fender Flares

Get that aggressive off road look with the NEW Rugged Ridge All Terrain Fender Flare! These 6" flares feature a stylish design while protecting your vehicles paint from flying rocks and mud. Constructed of durable UV treated ABS with a slight texture, these paintable flares provide a great look while being able to handle whatever nature throws at them. Each All Terrain Flare is designed to fit factory mounting points (CJ and YJ designs require some drilling) with durable rust proof stainless fasteners. Each front flare uses your existing side marker lights by easily attaching to custom light cut-outs. Backed by an industry leading 3 year limited warranty, these NEW All Terrain Flares will really set you apart from the crowd!

Oversized 7" Flares

Need a little extra coverage for those over-sized tires? The Rugged Ridge 7" Flare gives you the extra coverage you need while providing the clean look of original equipment designs. Each over sized Flare is constructed of virtually indestructible UV treated thermoplastic to provide years of service. The special UV treatment put on each flare provides protection from sun fading. These Flares are designed to bolt onto your vehicle but for CJ and 1987-95 Wrangler models some vehicle modification may be necessary to truly cover those oversized tires. If you go off-road and need to protect your vehicle from rock chips and debris, look to Rugged Ridge 7" oversized Fender Flares! Includes all mounting hardware.

Replacement Fender Flare Kits

Rugged Ridge provides the most comprehensive replacement Fender Flare program on the market today. Covering model years starting in 1955 until current, Rugged Ridge has you covered when it is time to replace or upgrade your Factory Fender Flares. Each Flare is constructed of virtually indestructible, durable, UV treated thermoplastic to provide years of service. Each replacement flare is designed to fit into your factory mounting holes (some models may require some hole relocation) for ease of installation. Just need to replace one flare? No problem. Rugged Ridge offers individual replacements to keep your investment to a minimum.

15301.50 Hyper Silver, 17"x9"
*while supplies last

Rugged Ridge is proud to introduce the toughest new design in custom wheels for 2007-10 Wrangler. This Hub-Centric design exactly centers the wheel over the hub providing proper balance, clearance for brake rotors, steering components and suspension. Better fit, no wheel vibration! Stainless steel button-head socket cap screws around the perimeter of the outer wheel face give a great 3-piece look, and also let you accessorize with our optional

trim ring. Each wheel includes a UV-treated polished center cap that replicates a manual hub for that off road look. Available in five finishes: Satin Black Powdercoated, Satin Black Powdercoated with Machined Lip, Silver Powdercoated, Dual-Stage Polished Chrome, and Limited Edition Hyper Silver. The durable powdercoated finish gives an ultra-hard finish for long life and a great look. The chrome finish uses a dual-stage process to give a deep reflective mirror-like shine that commands attention. Rugged Ridge wheels have been independently tested and certified to meet/exceed SAE J2530 standards for wheel strength and durability. Limited lifetime structural warranty and 1 year finish warranty (see warranty information for details and limitations).

COMING SOON!

NEW!

Steel D-Window Wheels

Legendary looks, brutally epic strength. Each Rugged Ridge steel wheel is stamped from heavy gauge steel and powder coated with a durable black finish. Our wheels have been engineered, tested and certified to meet and exceed the strenuous SAE J2530 standards for wheel strength and durability. Turning a million cycles at double their load capacity to ensure they could hold up to abuses of off road use. Because a Jeep isn't a Jeep until its lifted and outfitted with oversized tires. (Expected Spring 2010.)

15201.05 Wheel Spacer, pair, 2007-10 Wrangler with 5x5" Bolt Pattern

These hub centric spacers / adapters move your wheels out to help fit wider tires and give your vehicle a wider track and improve stability. Constructed of double anodized black extra thick 6061T6 aluminum for long life and extra corrosion resistance. All hardware is grade-8 for extra strength. Each part number comes as a spacer pair. Included are 10 pre-installed grade-8 wheel studs, 10 lug nuts and thread locker.

See page 91 for UTV Wheel Spacers

CAUTION!
CAUTION: Rugged Ridge™ recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at back of catalog.

Hard Top Sound Deadener/Insulation For 2007-10 Wrangler

If you chose the Hard Top option for your 07-10 Wrangler then you need Rugged Ridge's Sound Deadener. This insulation is custom fit for the factory multi-piece hard top and greatly reduces noise inside your vehicle. The special insulation material is surrounded by heavy duty pleated nylon providing added interior comfort by insulating the cab from heat and cold. A no drill installation with durable hook and loop fasteners allows for an easy installation without removing your hard top.

Rugged Ridge

Rugged Ridge Summer Accessories

Summer time is why you own a Jeep®! With the warm weather comes the open air driving we all love. Rugged Ridge Summer Accessories make that open air driving more comfortable and stylish. Each accessory is manufactured to exacting specifications using tough matching vinyl coated fabrics that will provide years of great looks and high performance. When you demand the best, Rugged Ridge is what you need! **Early model and UTV Summer Brief applications available too! See page 116 for UTV.**

Summer Briefs

Custom designed for each body style, these easy on, easy off briefs provide protection from the hot sun and sudden showers. Each Rugged Ridge Summer Brief attaches to the factory center hoop and windshield with heavy-duty nylon straps to prevent flapping. Key rear strap attachments have quick release fasteners so once your straps are set, they easily detach and reattach. Wrangler models also incorporate thick hook and loop side mounts to further secure the top. All 1997-10 models are designed to be used with a no-drill Windshield Header (sold separately, see bottom of page) for quick conversion from hard top to Summer Brief.

¹ Requires separate Windshield Header (#13308.05) for installation. ² Requires separate Windshield Header (#13308.04) for installation. ³ Requires separate Windshield Channel (#13308.01) for installation. ⁴ Includes Pockets.

Windshield Channels/Headers

These upgraded preassembled windshield headers installs quickly and easily! Just attach your Brief/Island Topper and place the header channel on the top of your windshield, slide the clamps onto the supplied knobs and clamp the channel in place. That's it! The channel is now securely held in place and ready for summer wheeling. No drilling or modifications required! Note: Will work with Bestop and other aftermarket summer tops. No Drill Windshield Header required for installation of Summer Briefs and Island Toppers on all 1997-10 Wranglers and Unlimited. Windshield Channels are required for installation of Summer Briefs and Island Toppers on all 1976-95 CJ/Wranglers.

13308.01 Windshield Channel for 76-95 CJ/Wrangler

13308.04 Windshield Header for 97-06 Wrangler

13308.05 Windshield Header for 07-10 Wrangler

Easy, No Drill Design. Simple One Minute Assembly!

Header Attaches with Only 2 Knobs

NOTE: If your 76-95 Jeep® already has a Windshield Channel installed on it, we highly recommend replacing it. Over time, these channels can come loose and will no longer hold your Summer Brief/Roll Bar Top in place.

Pocket Briefs

Tired of papers and other small items flying around the cab of your Jeep® when using your Summer Brief? Introducing the most innovative new addition to a Summer Brief in over 50 years the Pocket Brief from Rugged Ridge! This revolutionary design incorporates two mesh zippered corner pockets directly over the driver and passenger creating much needed storage space. Special two sided mesh and nylon “pocket” seals shut with a reinforced zipper, keeps small items secure even in most severe conditions. Built directly into the Rugged Ridge Summer Brief to ensure a clean, tight fit. Constructed of durable soft top fabric for long life. Available in matching soft top colors to give your Jeep® a finished look.

Mesh Summer Briefs/Island Toppers™

Special UV treated mesh fabric blocks the heat while allowing the cool breeze to flow through. The special weave of the Rugged Ridge mesh brief/Island Topper is designed for strength and durability while providing open air protection from the sun's heat. Available in two great styles: the Summer Brief that goes to the center hoop and the “Island Topper” Island Topper that goes back to cover those rear seat passengers. Don't forget the Header/Windshield channel needed to install these tops!

Island Toppers™

Provide the ultimate summer sun and rain protection with a Rugged Ridge Island Topper. Attaching the same way as our durable Summer Briefs, these full length tops provide protection from the elements for both the front and rear passengers. Rear attachment straps attach to the rear sport bar hoops on 1992-10 models. 1976-91 models include an easy to attach rear bow. All 1997-10 models are designed to be used with an optional, no-drill Windshield Header for quick conversion from hard top to Summer Brief.

Note: To ensure proper fit, measure the diameter of the tire you are covering and pick the appropriate tire cover size listed above.

Quality, Value, Selection, XHD Replacement Tops have you covered!

New and improved XHD Replacement Soft-Tops from Rugged Ridge are now available with 50% thicker glass! Each Fabric Soft Top is specifically designed to easily fit the factory original soft top hardware. Simply take off the old top and slip on the new. It's just that easy! These new designs feature reinforced stitching on the heavy "pull" areas as well as heavy duty 30 mil thick glass! All XHD Soft Tops feature durable vinyl coated polyester and cotton fabric that will last the test of time. All sewn seams use marine grade thread to make sure it does not deteriorate or discolor in the sun. Each seam is literally "welded shut" with durable heat seal tape to keep moisture out while keeping the original look of the top intact. Attaching the Rugged Ridge Top is easy with the factory original "belt rail" attachment method; simply tuck under the rail and go! All our tops feature two choices of door options as Jeep® offered the 97-06 Wrangler with upper soft doors or with full hard doors. Rugged Ridge makes a Replacement Top that fits either! Each top is backed by an industry leading [3 year limited warranty](#) against manufacturer defects.

The most comprehensive line of replacement soft tops on the market, so you can choose what options are best for you!

13727.35 Fabric Replacement Top with Upper Doors for 03-06 Wrangler

13729.35 Fabric Replacement Top (no upper doors) for 03-06 Wrangler

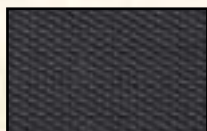

Zip-Out Windows

Get that safari look with the easily removable side and rear windows zipped out on Jeep® models! Rugged Ridge also offers a handy Window Storage Bag to protect those windows from damage. See page 31.

The Best Materials

All Rugged Ridge Soft Tops feature durable vinyl coated polyester and cotton fabric with "welded shut" seams that use durable heat seal tape to keep moisture out! These tops are real weather beaters and carry a *3 year limited warranty*.

Diamond Fabric now available

NEW 30 mil thick DOT approved windows are 50% thicker than lower cost soft tops! Each is UV treated for long life and ultimate clarity!

Tinted Window Models Available

With Rugged Ridge you do not have to pay a fortune for 31% tinted window option! Each window has been up-graded to 30 mil which is 50% thicker than other soft top brands! Rugged Ridge tinted windows last longer and keep the heat out! (Door windows not tinted).

50% THICKER GLASS!

Rugged Ridge All Terrain Floor Liners for 1976-10 CJ & Wrangler

12920.01 Floor Liner, Front, 07-10 Wrangler

JK

The only floor liner with patent pending "Deep Tread" Technology!

These floor liners are a totally new concept that combines all the best features of a deep rib floor mat and the 'old style' liners. Precision engineering using state of the art technology ensures an exact fit to the shape and contour of your vehicle's floor. The deeply molded Chevron-shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. It also contains the movement and sloshing around of any trapped water. The high perimeter wall offers a large footprint and maximum interior protection and containment. Unlike ordinary liners that utilize an inconsistent vacuum thermoform process and slippery lower grade plastic these liners are high pressure injection molded from OE-quality Thermoplastic that looks and feels like rubber and provides a nonslip surface. Raised ribs on the bottom provide maximum retention and keep the liner in place. The unique self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. Easy to remove and clean. Simply hose them off and go!!! The mat actually reseals itself around the hook!!! Patent pending.

OFFICIAL LICENSED PRODUCT

NEW! Licensed Jeep® Logo Cargo Liners And Floor Liners Now Available For 76-95 CJ7/8 & Wrangler

The deeply molded Chevron shape tread pattern channels dirt, mud and snow away from the driver to keep shoes and pant legs clean. "Deep Tread" technology!

Self-sealing floor hook attachment feature helps to prevent dirt and moisture from getting through. The mat reseals itself around the hook!

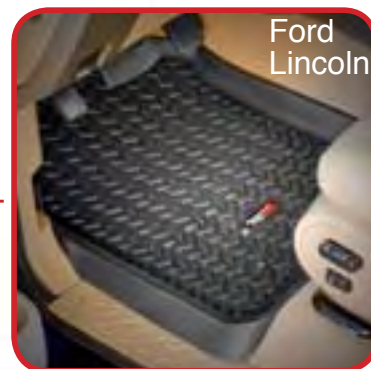

The high perimeter wall offers a large footprint and maximum interior protection and containment.

The only Floor Liners with Deep Tread Technology!

NEW!

This is not your typical floor liner! Ordinary floor liners on the market today are constructed of extruded plastic materials vacuum formed to fit the vehicle. Rugged Ridge has taken a completely different approach to floor protection. Each All Terrain Floor Liner is injection molded for superior fit and quality. The injection molded process, though more expensive to develop, allows us to create a floor liner that has exacting measurements for better fit and finish along with a deeply formed perimeter wall for maximum coverage. Each All Terrain Floor Liner has chevrons that are up to 3/8" deep. That is up to 3 times the depth of other floor liners! We call this true "Deep Tread Technology"!

Dash Organizer for 2007-10 Wrangler

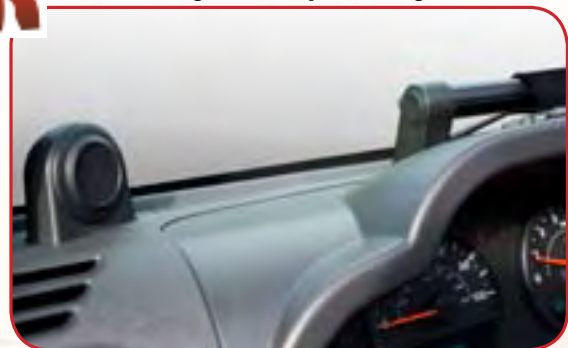

Looking for space to store that clutter? Introducing the new Rugged Ridge Dash Organizer for 2007-2010 Jeep Wranglers! This innovative new product incorporates existing mounting points to install a dual tray storage system right on your dash. Now you can easily store coins, pens, sunglasses, cell phones and other small items right in reach of both the passenger and driver. Installation is a snap; simply remove the original equipment screw covers on your dash, screw in the exclusive double headed mount and attach the Dash Organizer. It is that easy! Each Dash Organizer incorporates UV treated thermoplastic mounts and two trays with a painted aluminum cross tube for the ultimate in flexible design. Each tray can be mounted across the aluminum tube with thumb screw attachments. Rubber feet attached to the trays prevent rattling and provide a secure fit. The small tray has a special built in slot for MP3 players or cell phones with a belt clip (not included). Each tray has a special "recessed guide" that can be easily drilled out to create an out-of-the-way power cord locator. This exciting design has a low profile and does not interfere with driver visibility or air bag deployment.

Each Dash Organizer also includes a split bracket CB mounting kit and separate CB microphone holder for use with most smaller CB units. Holes in the bottom of the large tray have been pre-drilled for easy installation of these brackets and include a recessed area for optional out-of-the-way power cord use.

Mounts for Dash Organizer Mimic the Wrangler's Dash Speaker Design

Note: Dash Organizer can be converted to fit right hand drive applications

Each Rugged Ridge Dash Organizer comes with a removable rubber tray liner which can be removed for cleaning while providing a rattle free surface for small items. Removal of liner exposes a smooth surface for use with suction cup accessories such as GPS, radar detectors, cell phone holders etc.

Rear Storage Bin for 2007-10 Wrangler

Protect your carpet from moisture, dirt, and grease with the exclusive Rugged Ridge storage bin for 07-10 Wrangler. This custom fit storage bin fits perfectly in the rear cargo area storage compartment providing protection and an easy to use removable tote. Molded from rigid and durable ABS plastic for a perfect contoured fit and long life. The unique chevron pattern matches the look of the All Terrain Floor and Cargo Liners. Each bin features integrated handles for ease of removal and cleaning.

JK Rear Seat Organizer

The perfect organization solution for your Jeep®! The new Rugged Ridge Back Seat Organizer features two separate storage areas to organize wayward trash, toys, drinks, iPods and other clutter. Each organizer is designed to instantly fit into the rear cup holders of your 2007-10 Jeep® Wrangler and includes a removable double walled lid. The large storage area will hold up to three 12oz. soda cans or two 16.9oz. water bottles with ice. The top lid can be easily removed creating a handy writing surface or small tray. The front tray can keep cell phones, iPods or other small items from rolling around the back seat. Easily removable to clean and empty, this truly is a must for your Jeep®!

Billet Shift Knobs

Upgrade the look of your Jeep® with a billet aluminum shift knob from Rugged Ridge. These highly polished shift knobs attach directly to your original equipment shifter with no drilling. Simply unscrew your current knob and replace it with the billet shift knob. There are two styles to choose from: a solid polished version and a shift pattern version. Do not forget to also replace the transfer case knob as well! The combination creates the ultimate look! Please measure your shift/transfer case threads before ordering.

Standard Replacement High Back Seats

13401.01 Standard Replacement High Back Set, Black

Want all the strength and comfort of our reclining seat but without the recliner? Look no further! The Standard Replacement Seat from Rugged Ridge offers all the great quality benefits of our reclining seat but we have removed the reclining mechanism. This low cost alternative gives you the value and quality you are looking for, but is priced less. Also available in the Standard series is our Low Back Replacement Seat (on page 41). This seat is specially designed for those earlier Jeep® restoration projects and uses the original mounting hardware and bolts from the original seats.

Factory Style Replacement Seat with Recliner

13402.09 Factory Style Replacement Seat with Recliner

Replacement seating that reclines just like the original! All Rugged Ridge Seating is manufactured to exacting specifications to guarantee only the highest quality. Each seat is constructed of durable automotive grade vinyl that is designed to match your vehicles interior and all Rugged Ridge rear seats. All frames are powder coat painted and welded to make sure it can take those off-road adventures and years of open air use. The foam pack and spring system used on all Rugged Ridge Seats is extremely dense for long life yet soft enough for true comfort. Soft side bolsters "cradle" the driver making driving a pleasure. Each seat features an infinitely adjustable reclining mechanism to ensure proper driving position and the ultimate in comfort. All Rugged Ridge seats feature a stylish stitch pattern and original equipment bolt pattern for ease of installation and a great original equipment look. Simply remove the old seat and bolt in the new!

The Super Seat

This might be the last seat you will ever own for your Jeep®! Luxuriously soft side and bottom bolsters cradle you in comfort while providing stability on those off-road trails. Each seat features an infinitely adjustable reclining mechanism to ensure proper driving position and the ultimate in comfort. The adjustable head rest is secured by dual steel rods and backed by a powder coat steel reinforcement plate that is surrounded by dense poured foam. The main structure is powder coat painted steel with heavy-duty suspension springs creating a rigid support frame. This frame is then surrounded by the best poured foam you can buy and wrapped in tough automotive grade vinyl fabric. Comfort, strength and stability all in one seat! As with all Rugged Ridge seating, all feature a stylish stitch pattern and original equipment bolt pattern for ease of installation and a great look. Simply remove the old seat and bolt in the new!

RRC Reclining Racing Seat

You have seen the rest, now here is the best! More features, more comfort, and the best pricing of any racing seat design. Each seat features dual reclining mechanisms allowing for infinite reclining positions. The special "Jeep® Specific" design uses ultra dense foam and steel construction for greater comfort and long life. Side bolsters have been slightly expanded and designed specifically for both lifted and non-lifted Jeep® vehicles. Special air adjustable lumbar support provides the most comfortable back support in a racing seat design. Woven fabric and vinyl construction give the ultimate in comfort and wearability. Each seat has three seat belt harness cutouts for use with a multi-point racing harness seatbelt. 1997-02 models require the Rugged Ridge mounting bracket for installation (shown below).

Protect your Jeep's® interior with these two great Seat Cover options: Custom Fit Neoprene Seat Covers or Custom Fit UV treated Poly Cotton Seat Covers, both from Rugged Ridge. These covers are constructed of either durable neoprene or tough poly cotton fabric creating the best looking custom seat cover available. Rugged Ridge does not use that cheap stretch nylon on their seat covers! Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you. Poly Cotton is a great fabric to protect your seats from dirt, sweat and heat from the sun. No more burned legs from hot vinyl seats! Each cover is custom tailored for your Jeep's® original equipment seat style making your seats look like they have been recently re-upholstered. Installation is easy with special designed elastic cords, nylon straps and hooks that attach to your seat and to the seat cover mounting points. Available in black on black, grey on black, red on black (neoprene models only) and tan on black to complement virtually any Jeep® interior. 2003-2010 models have the center section stop before the headrest. All other models have the center portion (color) going all the way to the top of the seat.

Ultimate Locking Console

Standard Locking Console

Rugged Ridge II Locking Console

Replacement Center Consoles

Rugged Ridge Consoles are the ultimate storage solution for your CJ or early model Wrangler. Each console is constructed of durable Jeep® interior matching vinyl wrapped around plastic coated hard wood to keep moisture out and provide a great looking addition to your Jeep®. Each console is hand made to ensure a tight, wrinkle free finish. All Rugged Ridge Consoles feature a six can cooler, all mounting hardware and a dense foam arm rest for long life and a comfortable feel. Need lockable storage? No problem. All Rugged Ridge Consoles incorporate a locking mechanism to deter access to the storage compartments. Available in three unique styles and sizes, Rugged Ridge Consoles are the best storage solution available.

Rugged Ridge II Consoles feature dual adjustable cup holders, removable soft sided CD holder, two oversized storage areas, back seat cup holders and a rear map pocket.

Ultimate Locking Consoles feature dual front cup holders, removable CD tray, can cooler, coin storage tray and sunglass holder.

SUV/Jeep Storage Bag

Custom designed to provide removable storage for Jeep® vehicles. Special size fits behind rear seat to organize and store your cargo. Constructed of durable vinyl with a zipper top and removable cargo dividers - easy to use shoulder strap included.

Jeep®/SUV Storage Bag, Universal all Jeep®

13551.01

Off-Road Organizer

Custom design for use in Jeep® glove boxes. Special pockets allow you to effectively organize owners manuals, maps, tire gauges, vehicle registration and more. Constructed of durable nylon in a tri-fold configuration.

Sound Bars

Pump up the music with these high fidelity Sound Bars from Rugged Ridge. Designed to fit directly behind the center hoop of all 87-06 Jeep® Wranglers and Unlimited vehicles, these Sound Bars are one stop 200 watt peak power "sound machines". The six speaker pre-wired bar features a 40-22,000 Hz frequency response. Outstanding midrange from a pair of 2" midrange speakers, thumping bass from the two 6.5" woofers and a pair of 1" tweeters for exceptional high frequencies make the Six Speaker Bar sing! The Two Speaker pre-wired speaker bar features a 100-20,000 Hz frequency response for dynamic sound quality. All Rugged Ridge Sound Bars include dual map lights and mounting hardware.

Note: These kits require the purchase of spray adhesive which can be found at any hardware store.

**Electronically Surged
Edge Will Not
Unravel**

Nothing refreshes the inside of a vehicle like new carpet. This NEW design provides Tufted Polypropylene carpet with electronically surged edges that will not unravel. Polypropylene is a space-age polymer chosen for its rugged durability and resistance to chemical solvents and mildew. Full interior design includes tailgate and wheel well coverage. Features jute backing and driver side vinyl heel guard. Thanks to the sound deadening properties of the carpet, interior noise will also be reduced. The precut six-piece design is made for your vehicle to ensure proper fitment. Available in three popular and attractive colors to match your Jeep's® interior.

11002.20 Heated Mirror Kit, Black, 87-02 Wrangler

LED Mirrors & Heated Mirrors

Looking to upgrade your current mirrors with the very latest features? Rugged Ridge offers a wide variety of special mirrors that offer you added features at economical prices. We offer heated mirrors, LED turn signal mirrors, Dual Focal Point mirrors and special mirror relocation brackets to place your mirrors on the vehicle if you remove your doors. Look to Rugged Ridge to offer the widest variety of replacement mirrors available for Jeep®. Special heating elements are incorporated into the mirror to quickly defrost your mirror during those cold winter days. The latest in mirror technology puts an LED light on the side of the mirror that turns on when you use your turn signal or parking lamps. This great feature lets the driver beside or behind you know you are turning. Mirrors available with heat, LED or BOTH! Some wiring and drilling required for installation.

Dual Focal Point Mirrors

This special convex glass mirror gives you extra side visibility with dual focal points: one regular mirror view on the upper half of the mirror and a convex "items are closer than they appear" view on the bottom of the mirror. No more need for those clumsy "pancake" convex mirrors that keep on falling off in car washes!

Stainless Hinge Treatments for 2007-10 Wrangler

These cast stainless design Hinge Treatments are guaranteed not to rust while providing a new beefy look. Door and Hood Hinge covers feature a easy-to-install design. Replacing your existing hinges can break & crack the surrounding paint, as the hinges were painted at the factory after installation. These covers retain the stock hinge but give it a new look without harming your expensive paint. A direct bolt on - no drilling required, fits either side. Use #11113.06 for 4-door models, #11113.05 for 2-door models and #11111.10 for hood.

Fast and easy installation on your door or hood hinges

Stainless & Billet Style Gas Hatch Covers

Create a custom look in just a few minutes. This special design fits directly over the existing gas cap opening. These tough gas covers are available in either stamped stainless steel, polished aluminum or chromed aluminum and are specially treated for resistance to gasoline and other chemicals. Unlike other designs on the market, installation does not require the removal of the tail light or internal gas cover components. For 2007-10 Wranglers the cover attaches directly to the original equipment plastic insert using self tapping screws with no need to remove the existing plastic insert. Available with or without locking mechanism. Please note that your factory gas cap is still required.

Hinge Treatments for 2007-10 Wrangler

These cast steel design Hinge Treatments are guaranteed not to rust while providing a new beefy look. Door and Hood Hinge covers feature a easy-to-install design. Replacing your existing hinges can break & crack the surrounding paint, as the hinges were painted at the factory after installation. These covers retain the stock hinge but give it a new look without harming your expensive paint. A direct bolt on - no drilling required, fits either side. Use 4 hinge treatment pairs for 4-Door models, 2 pairs for 2-Door models and 1 pair for hood.

Bumperettes	Part #
76-06 CJ/ Wrangler*, Pair	11215.01

* including Wrangler Unlimited

Full Frame Light Bar

This three-piece light bar simplifies your installation dramatically because you won't run the risk of scratching up your windshield frame trying to mount a heavy one-piece bar with four lights onto your windshield hinges. With this bar you can install one piece at a time. The bar is powder coated in black and packaged in a easy to ship box for your convenience.

Rugged Ridge Body Armor for 2007-10 Wrangler

Get that offroad look with Rugged Ridge Body Armor! Each Body Armor piece is constructed of black diamond plate UV treated thermoplastic for the coolest, toughest looking upgrade for your Jeep®. Each body armor attaches to your Jeep® with ultra strong 3M tape to ensure a secure fit. Have a scratch or dent on your paint? Cover it up with Body Armor! Simply fill in the scratched area with touch-up paint (to prevent rust) and install the Body Armor. You have now repaired and upgraded! Available in individual pieces or complete styling "kits", so you can customize the look of your Jeep® the way you want.

Cowl Body Armor

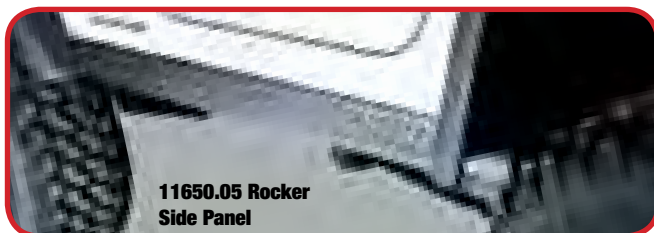

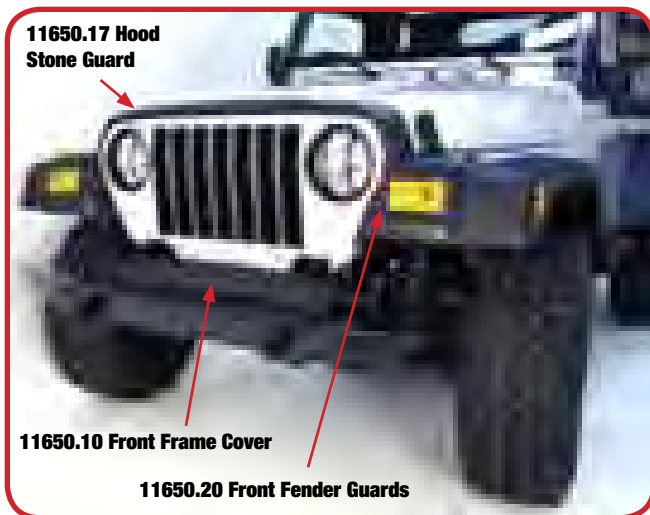

JK

Cowl Body Armor	Part #
07-10 Wrangler Matte Black, Pair (NEW)	11651.18

Protect your cowl from mirror damage with cowl body armor from Rugged Ridge. Whenever your door limiter straps come disconnected the door can over extend causing damage to your cowl area. These new cowl covers protect your cowl area while providing a great look. Constructed of durable UV thermoplastic, these covers easily attach using 3M double sided automotive grade adhesive. Packed in pairs.

Enhanced Four Color Skin Packaging

As always, Omix is continuously looking for ways to improve both the quality and the marketability of our products. In the recent months we have made significant improvement in our packaging. Many of our great new products like: All Terrain Floor Liners, Winches, and Recovery Gear come with slick new four color packaging that increases both the Retail and Out of Box experience. But we are not stopping there. Effective immediately Omix is offering four-color skin packaging for our hottest selling Rugged Ridge accessories. This process adheres product to a graphic cardboard backing with a clear plastic film. The result is an attractive yet pilfer resistant package that requires minimal shelf space for stocking. It drives home sales by giving consumers a full view of the part they are looking to purchase. Enhance your show room and POS displays by adding the hottest new accessories from Rugged Ridge today. A complete listing of the 165 parts available in skin packaging is located in Price List Section of our ecommerce site.

Rugged Ridge Synthetic Rope Performance Winches!

We have taken the high quality features of our regular winch and replaced the steel cable with genuine Dymeema SK-75 Synthetic Rope for a lighter weight, high performance winch option. The synthetic rope used on Rugged Ridge winches is custom designed for heavy duty use and combined with the included polished aluminum hawse fairlead and 12' hook, will provide the ultimate in pulling power.

Rugged Ridge 8,500 Synthetic Rope Winch- 11/32" x 100', Breaking Force 16,550lbs

- Constructed with Dyneema SK-75 fiber from the Netherlands.
- Same high strength fabric used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Heavy Duty 11/32" 12-strand braid with a breaking force of 16,550lbs
- Hawse fairlead included

**ALL RUGGED RIDGE
SYNTHETIC WINCHES
INCLUDE AN ALUMINUM HAWSE FAIRLEAD**

Why Synthetic Winch Rope?

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge high strength synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from overheating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely to result in severe injuries caused by the whiplash of broken wire rope.

- Same high strength fabric used in ballistic body armor.
- Significantly stronger than same diameter steel cable and up to 40% stronger than Kevlar.
- 1/7 the weight of the same diameter wire rope.
- Will not splinter, kink or curl like wire rope & floats in water.
- Specially coated to be resistant to UV, abrasions, and chemical solvents.
- Protective sleeves keep line from overheating on winch drum.

Gas Tank Skid Plates

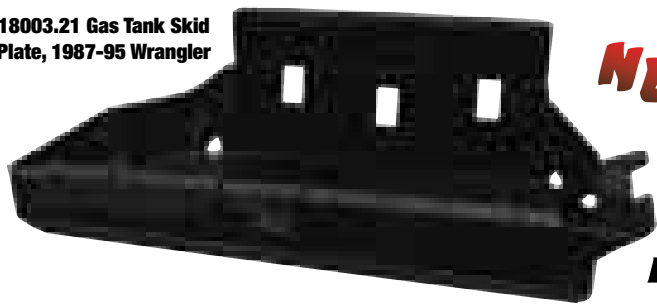

The last thing you want to happen on a trail ride is to lose the only thing that keeps your engine running: gas. That's why Rugged Ridge has custom designed this Skid Plate to protect the gas tank on 1987-06 Wranglers. This overbuilt skid plate is a must for those who want that extra bit of protection for their off road adventures. Constructed of durable 3/16" thick powdercoated steel with a rust resistant E-Coating, this Skid Plate is designed to take whatever the trail throws at you! Bolt-on installation using existing frame mounting locations. This skid plate replaces the factory skid plate.

Dual Battery Tray Kits

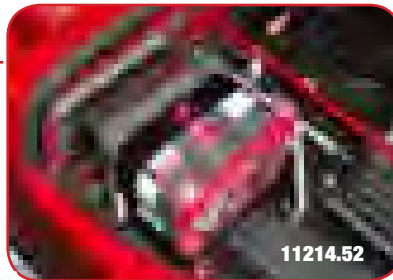

Outfitting a trail rig can add greater strain to the electrical system. Adding on a winch, air compressor, fog lights, driving lights, a spot light, electric fuel pump, and a stereo amp can really tax the battery. A great way to combat that strain is to install dual batteries. This is especially true when using a winch, which can draw big amps for an extended period. These kits are designed to mount two batteries in place of the factory single battery location. The trays and brackets feature a black powdercoated finish. These are mounting kits only and do not include any wiring. A suggested wiring diagram is included. 70-95 CJ & Wrangler kits place the batteries side-by-side and may be used with lead acid or cylindrical-style sealed gel cell batteries. 97-06 TJ Wrangler kits stack the batteries and are for use with cylindrical-style sealed gel cell batteries only due to the battery mounting direction.

NEW!

Heavy Duty Tire Carrier Mount

If you have installed larger tires on your rig then a matching spare tire is a must. The problem comes when you try to bolt that new monster tire/wheel combo on your factory spare tire mount. Rugged Ridge has the answer with the HD Tire carrier Mount. The HD Tire Carrier Mount is constructed of heavy 1/4" steel plate and mounts to the tailgate. The tire is relocated two inches up and out from the old mount for larger tire clearance (Maximum tire size=35").

Heavy-Duty Tire Carrier & Spacer

11585.01 Textured Black, 87-06 Wrangler, Each

CAUTION: The tire carrier mount is designed to fit tires 35" in diameter or less.

11585.01 Tire Carrier Mount, Textured Black, 76-06 CJ/Wrangler

Heavy Duty Tire Spacer

The Spare Tire Spacer bolts to your existing factory spare tire mount and relocates the tire two inches up and out. Both the HD Tire Carrier and Spare Tire Spacer feature 5x4.5" and 5x5.5" wheel bolt patterns and tough powder coated black textured finish. Caution: The tailgates on 07-10 Wrangler models are not designed to hold extra large tires. Therefore, do not use a tire larger than a 33x12.50" or equivalent tire with this spacer. If you want to carry a larger tire, we recommend using the XHD Rear Bumper with Tire Carrier (Only for JK 07-10)

Heavy-Duty Tire Carrier & Spacer

11585.02 Textured Black 76-10 CJ/Wrangler, Each

CAUTION: The tire carrier spacer is designed to fit tires 33" in diameter or less. Do not exceed these tire sizes

Manual Locking Hubs

Knee deep in mud with a failed automatic hub and a disabled vehicle? The only way to repair it is to replace it. The question is, with what? Factory automatic hubs have a history of failing when you need them most. A damaged hub will render your 4x4 useless and leave you stranded. Wish you could swap your venerable automatic hubs to a set of manual locking hubs? Rugged Ridge has heard your plea. Rugged Ridge Manual Locking Hubs are unanimously recognized as the world's toughest hubs by our thousands of satisfied customers worldwide. Brute strength matters, that is why the bodies of our hubs are crafted from impact resistant nodular iron, and feature a corrosion resistant die cast aluminum cap. Our hubs deliver better 4WD performance when locked and improved fuel economy in 2WD when unlocked, than automatic hubs. Purchasing a set of premium manual hubs is more cost effective than servicing your worn factory hubs. With the money you save you'll be able to carry a spare set, not that you'll need them. Sure you have to get out of the cab to lock the hubs, but unlike automatic hubs you won't have to wait until you lose traction for your four-wheel drive to engage.

Rugged Ridge Premium Hubs Feature:

- A full metal cap and body crafted from impact resistant nodular iron.
- Corrosion resistant die cast aluminum caps coated with high luster epoxy enamel for along lasting finish.
- Better 4WD performance when the manual hubs are locked. Works in reverse and compression braking.
- No slippage or partial engagement / disengagement issues that plague automatic hubs.
- Better fuel economy by freewheeling in 2WD mode. Great for any "tow vehicle".
- Decreases wear on internal components by engaging 4WD only when needed.
- More durable and cost effective than replacing or servicing automatic hubs.
- Ridiculously simple installation. Your average installation is completed in less than 20 minutes.
- Manual hubs offer extra gear ranges. By unlocking your hubs and driving in 4WD mode, you gain use of 2WD Low and 2WD High ranges.
- 1998-00 Ford Ranger (15001.70) application is only available from Rugged Ridge!

Transfer Case Slip Yoke Eliminator Kit/CV Drive Shafts

18676.72 Mega Short Slip Yoke Eliminator Kit

This kit is a MUST if you installed a 2" or taller suspension lift in your 1987-2006 Wrangler (not needed for body lifted Jeeps®). The kit fits all 1987 and up NP 231 transfer cases. A Slip Yoke Eliminator Kit (SYE) will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed yoke and CV-style drive shaft assembly. The Mega Short SYE (18676.72) is designed to be used in the same lift applications as the other standard SYE kit (2" and up). The main advantage to the new Mega Short SYE is that it allows for a much longer drive shaft to be used (additional 3"). This reduces drive shaft angle, improves bearing & U-joint life, reduces driveline vibrations. It also has a shorter and stronger main shaft design with improved oiling. Will not work with cable driven speedometers. Not for use with Rubicon models.

WARNING

WARNING: OEM slip yokes on 1987-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2" or taller. See additional product safety information and WARNINGS at back of catalog.

*See page 221 for NP231 Transfer Case Parts

Lower Control Arm Mounts for 1997-06 Wrangler

Designed to replace and upgrade the weak OE front lower control arm mounts on 1997-06 Wranglers. These heavy-duty weld-on brackets provide a secure mount when driving off road. Greater wall thickness combined with a welded alignment cam provide extra support to the axle.

Lower Control Arm Mount	Part #
Lower Control Arm Mount, 97-06 Wrangler, Pair	18273.01

Heavy-Duty Steering Box Mount

18003.10 Heavy-Duty Steering Box Mount

This overbuilt mounting system eliminates the two piece original equipment version that is prone to fatigue and cracking. With this mount, we have integrated a clamshell frame plate eliminating any potential weak points. Each kit is complete with all hardware and installation instructions. This is the last steering box mount you'll ever need to buy!

Heavy-Duty Steering Box Mount	Part #
76-86 CJ w/power steering, Kit	18003.10

Heavy-Duty Steering Box Brace

Heavy-duty design supports your steering box during those offroad adventures. Easy to install bolt on design.

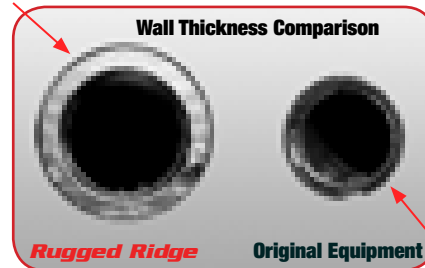

HD Steering Box Brace	Part #

84-01 Cherokee, Each	18021.05

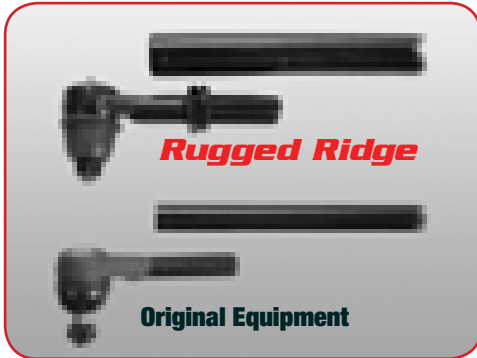

Heavy-Duty Steering Kits & Components

Beef up your ride with Rugged Ridge steering components. This is a bolt-on solution for preventing bent tie rods from wheeling with larger tires. The tubes are 1-1/4" ID SAE 1018 steel that is cold rolled, pierced, and drawn through dies to produce a wall thickness of 1/4". This is true DOM tubing with no seams or welds to fail. Heavy-duty 7/8" rod ends feature standard tapered ends to fit stock knuckle applications. You get one ton strength without any modifications to your steering knuckles. The Heavy-Duty Crossover Steering Conversion Kit replaces the bump-steer prone inverted Y-type steering system. This kit connects the drag link to the end of the tie rod at the wheel, giving a better steering angle and better leverage. If your vehicle is lifted a crossover steering system is a must!

Front Adjustable Track Bar & Frame Stiffener

18205.20 Track Bar/Frame Stiffener Kit

The Adjustable Track Bar's function is to properly locate and center the front axle under the body of your Jeep® and improve its handling capabilities and steering geometry. This kit is designed to correct misalignment that can develop with Jeeps® with 4" of lift. Our track bar tubes are constructed with the same beefy 1.25" OD x.25" wall DOM tubing found in our Heavy Duty Tie Rod Kits! The bar is powder coated black to prevent corrosion and includes: polyurethane bushings, heavy duty mounting bracket and features a 7/8" zinc plated rod end. This a great companion to our 84-01 XJ and 93-98 ZJ Heavy Duty Crossover Steering Kit #18050.82. For the ultimate in front end rigidity add on our Frame Stiffener #12035.51. This piece ties the front frame rails together while bracing the track bar mount. It is specifically designed for use with the Adjustable Track Bar (#18205.03) only.

RRC Tubular Flat Fenders

These over-built tubular fenders were designed for maximum suspension articulation while still maintaining a factory-style inner fender liner. Tough 0.120" wall tube is attached to 1/8" steel plating for one tough fender design. RRC Tubular Flat Fenders are direct factory replacements with a built in full fender liner (some drilling may be required) allowing for all factory engine accessories to be mounted by using the factory mounting hardware. Fenders are packed in pairs, primed for paint. Though these flares cover most tires, they are designed for offroad use and additional flare coverage may be needed for onroad use in some states. Two unique styles to choose from: Basic model requires greater installation (drilling) and more sheet metal work before painting. It also includes the side marker light housing. Upgrade model bolts directly on using factory inner liner has ground welds and is ready for paint. The upgrade version does not include the side marker light housing and is designed for offroad use only.

Part #	Description
12004.61	Basic Flat Fender, 97-06 Wrangler, Primer, Pair
12004.53	Upgrade Flat Fender, 97-06 Wrangler, Primer, Pair

HID Off Road Lighting

We mated the brilliance of High Intensity Discharge bulbs with the rugged construction of our traditional halogen off road lights. The result is more efficient and powerful beam better capable of illuminating the night sky. HID lights are 2½ times more powerful than halogen lights and draw 60% less current than a standard 100W fog light. Our 6" and 5" HID Lights are constructed with heavy duty stamped steel housings, and are available in corrosion resistant black or stainless steel finish. Rugged Ridge lights feature waterproof connections, internal ballast, and a reinforced multi-directional mounting base. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards and illuminated dash switch.

- 5", 6", 7" HID light assemblies available.
- 12V 35W 4200K HID Bulb.
- Internal ballast - no external ignition ballast to install.
- 2½ times more powerful than halogen bulbs.
- Draws 60% less current than a standard 100W fog light.
- HID Lights include impact resistant stone guard.
- The average life of an HID bulb is 2000 hours, compared to 500-1000 hours for a halogen unit.

Lights are available individually.
All include impact resistant stone guards

All HID lights are available in 3 packs for use with Rugged Ridge Light Bars

Kits include a pre-terminated wiring harness, relay and illuminated dash switch

Halogen Off Road Lighting

Designed, engineered, and tested to stand up to the rigors of off road use, our lights are constructed with heavy-duty stamped steel housings, and crystal glass lenses set in shock absorbent weatherproof rubber gaskets. The brilliant 12V 100 watt halogen bulbs slice through fog, rain or snow to help illuminate the road even under the toughest conditions. Available in Round, Rectangular and Slim housings in either a black or stainless steel finish to best suit your application. Slim lights feature a narrow profile just 2 13/16" thick! This sleek design allows them to be mounted in places most lights won't fit. They are perfect for windshield and grille mount light systems. The lights are available individually or in kits containing a pre-terminated wiring harness, relay, impact resistant stone guards (white stone guards with stainless, black with black) and illuminated dash switch.

Front Bumper Light Bars

Rugged Ridge has engineered a durable and easy to install light bar that allows you to add auxiliary lighting to your factory Wrangler bumper. The light bar bolts to existing mounting holes and installs easily without cutting, drilling, or removing the bumper. With a few simple hand tools you will be able to install your light bar and mount up to three lights on your Jeep® while retaining your factory bumper. Lights not included.

Rugged Ridge JK Windshield Light Bar

The Ultimate Light Bar for your Wrangler! This exciting new design has been created to give the durable look of a five tab light bar with features found nowhere else. Through extensive testing, this heavy duty light bar incorporates a special wind deflector below the light bar to dramatically reduce whistling and "buffeting" of your soft top. Each bar hugs the contour of your windshield providing a great look while not interfering with the use of your hard or soft top. Oversized 2" textured black tubing attaches to your windshield mounts with no drilling. Each Light bar has five light tabs for use with Rugged Ridge Lighting options (fits up to five 7" lights). Each light bar has been specially developed to work with Rugged Ridge Light mount brackets and/ or Rugged Ridge mirror relocation brackets. Special three piece design makes the packaging small for ease of shipping. This is truly the most advanced light bar on the market!

Stainless Steel Cat-Back Exhaust System

Open up your Jeep's® exhaust with this great looking and long lasting stainless steel exhaust system. You'll get a mellow exhaust note that will set your rig apart. The 2-1/4" mandrel bent pipes give hot exhaust gases a smooth exit without the constrictions found in crush-bent pipes. This is a bolt-on system that installs after the catalytic converter to keep you emissions legal. The dual split exits feature slash cut and rounded oval tips for a tough look. Includes all necessary mounting hardware.

Stainless Headers for 2007-10 Wrangler

Our custom Exhaust Headers are engineered to deliver improved performance. The 3.8L isn't a bad motor it just needs more air to "breathe" properly. Our headers increase exhaust gas exit velocity to move more air through the cylinder head's combustion chamber resulting in performance gains. They are constructed of 409 stainless steel to ensure a long operating life. Each complete kit includes manifolds, gaskets, hardware, clamps and easy to read instruction sheets.

Stainless Steel Headers	Part #
2007-10 Wrangler w/3.8L Engine, Each (NEW)	17650.53

Rugged Ridge Headers

These high quality Rugged Ridge headers are available in four finishes: polished 304 stainless steel, non-polished 409 stainless steel, high temperature metallic black ceramic and black painted for a long operating life. All Rugged Ridge designs are extra tough for extreme usage. Flanges are welded 360 degrees to stand up against the hottest conditions. Our polished stainless design gives your engine that new, hot look. Our ceramic coating look great and protects against corrosion & thermal fatigue while increasing horsepower and extending the life your of header. Ceramic headers retain heat better than their chrome or stainless counterparts. Retaining exhaust heat improves air density in the cylinder head's combustion chamber for enhanced air flow. This improved flow increases the exhaust gas exit velocity, and cuts down on your under hood temperature, resulting in performance gains. Each complete kit includes manifold, gasket, hardware and down pipe flange gasket and is backed by a three year limited warranty against corrosion. 97-99 models re-use the factory head pipe. The complete bolt on kit includes manifold, gasket, hardware and down pipe flange gasket. All Rugged Ridge headers come with a limited 6 month/6,000 mile warranty.

Cold Air Intakes for Jeep®

Want more horsepower, better throttle response, and improved acceleration?

A Rugged Ridge Cold Air Intake System can boost your performance, while helping you keep extra cash in your wallet. Our polished aluminum mandrel bent intake tube replaces the restrictive factory air box to help improve fuel economy. A black powder coated heat shield separates the filter from engine heat, dirt and debris, as cold air is drawn through a high-flow conical air filter. Unlike other reusable air filters, our dry panel design never needs oiling, which keeps your mass airflow sensor from being damaged by excess oil! The simple bolt on installation gives you power you can feel, adding up to 10HP and 12ft lbs or torque, depending on application.

- Polished mandrel bent 6063 aluminum air intake tube.
- Simple no-drill installation bolts on using simple hand tools.
- Includes a high-flow conical dry panel filter that never needs oiling.
- Intake kit includes black powder coated heat shield
- Part # 17750.01 for 97-06 4L wranglers include a throttle Body Spacer as a part of the kit.
- Improves fuel economy up to 10%*
- Adds up to 10HP and 12ft lbs or torque**

Throttle Body Spacer

The Rugged Ridge Throttle Body Spacer raises the throttle body 1" above the intake manifold. The lift helps optimize power and performance by drawing in colder denser air. The large bore design allows your system to inhale a larger volume of air producing more horsepower and torque. It features solid aluminum construction with a slick anodized black finish, and is a bolt on performance adder for both 4.0L and 2.5L engines.

- Solid Aluminum Construction.
- Simple no-drill installation bolts on using simple hand tools.
- Includes mounting hardware, gaskets and spacers.
- Black Anodized Finish.
- Fits 91-06 Wrangler 4.0L & 91-02 2.5L & Cherokee 91-01 4.0L & 91-00 2.5L

11237.10 Lockable Spare Tire Mount Bike Carrier

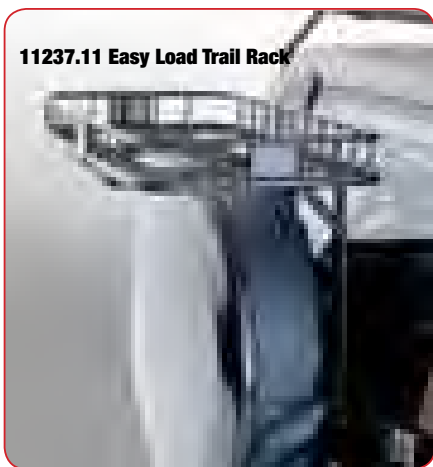

Lockable Spare Tire Mount Bike Carrier

This easy-to-use bike rack mounts to any emergency tire mounting studs. The bike rack carries 2 bikes directly off the spare tire. It is constructed of 2" powder coated steel tubing for maximum rust protection and durability. The bike clamp feature rubber pads to protect your bike's finish. The carrier comes with 2 keys for the locking mechanism. Fits wheel off sets from 2-5/8" to 6". For All Jeep® Outside Spare Tire Applications

Bike Carrier	Part #
Spare Tire Mount Bike Carrier, Each	11237.10

Easy Load Trail Rack

This clever application provides extra storage right above your spare tire. Carry camping gear, coolers and other necessities far above the ground. The rack tubes are welded and powder coated for extra durability. The new Euro style design makes this item look as good as it performs. You can mount this no-drill-installation rack in no time. Storage capacity is rated at 50 lbs.

1-7/8" x 3/4"	11305.02

Designed by a dedicated team of Jeep® enthusiasts, the ORV suspension program is one of the most complete programs available. We have looked at each application in detail to provide the very best and most complete solution for your Jeep®. Since we focus the large majority of our attention on Jeep® vehicles, we know the ins and outs of what the best lift solution is depending on your individual needs. Below is a quick reference guide on the ORV program to make it easier to choose the lift you need for your particular need. Remember, all ORV Kits with shocks include a pair of neoprene wrapped grab handles and an Off Road Organizer for your glove box! **Welcome to ORV™ by Rugged Ridge™!**

A Few Words About Product Safety.

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. In considering modifications to your Jeep's® suspension you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your desired off road capabilities against how the vehicle may actually be used off road and on road.

It is not practical or possible to warn about all hazards associated with your Jeep® or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions, warnings limited warranties and the instructions and warnings accompanying your aftermarket product. To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices" and "Warnings". This information alerts you to potential hazards that could hurt you or others.

- ▲ NOTICE** This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.
- ▲ WARNING** This is a signal telling you that you CAN BE KILLED or SERIOUSLY HURT if you don't follow the Warning. The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.
- ▲ CAUTION** This is a signal telling you that you or others CAN BE HURT if you don't follow the instruction. The Caution includes information about how you can avoid those risks.

WARNING
HIGHER SOLLVER SEE

Modifying the suspension of your vehicle to improve off road capabilities involves certain risks. The modified vehicle may handle differently than as factory equipped including increased ride-height; reduced lateral stability and risk of roll-over or other accident. Also, owner's choice of larger tire and wheel combinations may require additional braking force or increased stopping distances.

- Failure to drive this vehicle safely may result in serious injury or damage. Avoid sharp turns or abrupt maneuvers. Do not drive the vehicle under any speed or maneuvering conditions which may cause the vehicle to trip, roll, lose traction or compromise your ability to safely brake in an emergency.
- Familiarize yourself with all vehicle manufacturers and Rugged Ridge™ warnings, instructions and limited warranties before driving this modified suspension vehicle. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off road damage.
- Rugged Ridge™ does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge™ suspension product to achieve additional lift. Also be aware that most states have restrictions on height modifications for vehicles used on road. Consult your vehicle owners manual, limited warranties, the instructions and warnings accompanying this product and state law before undertaking these modifications or using your modified suspension vehicle on road. A summary of current regulations affecting modified suspension vehicles is available from www.SEMA.org.
- Always wear seat belts and/or appropriate off road restraints, reduce your speed, tread lightly® and safely enjoy your off road vehicle.

KNOW YOUR KITS: Though there are many ways to provide extra lift for your Jeep®, ORV recommends the following lift options as the best way to Lift your Jeep®:

Poly Spacer Kits: Available for Coil Spring Jeep® Wranglers from 97-06 and 99-04 Jeep® Grand Cherokees

Coil Spring Kits: Available for Jeep® Wranglers from 97-10, 93-98 Jeep® Grand Cherokees and 84-01 Jeep® Cherokees

Leaf Spring Kits: Available for Jeep® CJ/Wrangler from 55-95 and 84-01 Jeep® Cherokees

LIFT OPTIONS EXPLAINED:

• **Poly Spacer Kits** - Used for small lifts, these low cost lifts are designed for on road/light off road use only and incorporate the factory coil springs. With the addition of spacers, the ride of your Jeep® will be stiffer than original and provides very little articulation when off road. Bump stops (also called blocks) should always be a part of the kit as you will be using the factory springs. Without the bump stops your spring could over compress or in the case of 07-10 Wranglers, the spring could invert inside itself. These situations can cause a rebound rate that is too great causing a potential mishandling situation or damage your suspension. This method of lifting is the low cost/lower performance solution to lifting your Jeep® vehicle.

• **Coil Lift Kits** - Used for medium to large lifts, these lifts are designed for on road and moderate to severe off road use. Coil Spring kits provide the best way to give extra lift and still maintain OE ride characteristics. The 2" - 4" kits should offer new springs and extended Bump Stops as listed above as well as rear track bar bracket/brace to ensure proper centering of the axle and a secure fit. On 4" kits, it is important have front sway bar disconnects. These important disconnects will provide much more articulation when using your Jeep® off road.

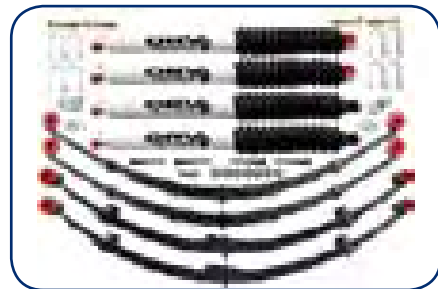

• **Leaf Spring Kits** - Used for all Jeep® CJ/Wrangler vehicles from 1955-1995, these heavy-duty lifts provide a fairly straightforward lift option. The key to any leaf spring lift is the leaf spring itself and prices will vary greatly depending on quality and features. Key "must-have" features that will provide the best ride include: 1.) Teflon inserts between each leaf. These inserts allow each leaf to move independently creating a better ride both on and off road. 2.) Leaf springs should be held together with roller clips and not cinch clips. This method of securing the leaf springs together is more expensive but dramatically improves the vehicles ride and off road performance. 3.) Make sure your leaf springs have built-in degree wedges to help with pinion angle issues. Plus by having a degree wedge already attached, installation of the kit will be easier and there are no extra parts to purchase.

ORV SHOCKS

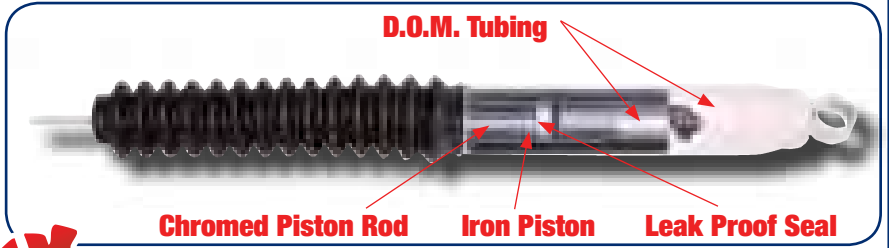

ORV only uses nitrogen charged gas shocks for all their kits. Though a little more money, the nitro gas shock in combination with the ORV kits provide a better ride both on and off road. By using an ORV lift kit and matching gas shocks, you optimize the suspensions capabilities giving you a better ride both on and off road. Another advantage to Nitro gas shocks is their ability to prevent body roll. This is extremely important, as body roll will kick in the ESP sensors on later model Jeeps®, which will shut the vehicle down.

ORV shock features include:

- 150 PSI pressurized Nitrogen gas
- Internal valving - the internal orifice will rotate when the piston moves more than 2" - automatically adjusts to make the ride as smooth as possible
- Twin tube construction to lower heat build up and protect the shock from off road obstacles
- Constructed to ORV specifications by a leading Shock manufacturer
- Bonded Iron 14mm piston with extra chroming - provides for a longer, rust free life
- Includes polyurethane bushings and a black shock boot
- Limited lifetime warranty on the shocks

The ORV™ Advantage!

JK

ORV STEERING STABILIZERS

ORV recommends upgrading your current steering stabilizer or adding a stabilizer on all lifted Jeep® vehicles. The ORV Steering stabilizer dampens out the roughness of the highway and the vibration from running larger tires and wheels. ORV Gas Stabilizers also make it easier to move those larger tires and wheels both on and off road. These noticeable handling improvements are well worth the small investment!

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 2007-10 Wrangler JK, 2.5-3.5" coil kit is designed for up to a 34" x 12.5" x 16" tire and moderate off road use. The 4"-5" coil kit is designed for more severe off road use and up to a 35" x 12.5" x 16" tire.

ORV 2.5"-3.5" Coil Spring Lift - With shocks part # 18415.50

- The most complete kit available on the market for JK.
- Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to factory rates.
- By using 5160H hot rolled bar, the ORV Springs keep their memory, eliminating any possibility of future sag.
- Setting coil springs to factory rates gives you the best on road ride possible and the ability to use a larger tire.
- Each kit includes a rear track bar brace to strengthen the original track bar mount. An ORV exclusive!
- 4-Door JK's will get on average a 2.5" lift. Two door models will get up to a 3.5" lift. All lifts are dependent on specific Jeep® characteristics and additional parts being put on the vehicle (bumpers, winch, hard tops, soft tops etc.).
- ORV kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

JK 2.5"/3.5" Lift Kit

ORV 4"-5" Coil Spring Lift - With shocks part # 18415.60

- Get off road performance while not sacrificing on road ride.
- Includes 4 powder coated, E-coated 5160H hot rolled bar 5/8" coil springs, set to factory rates for longer life and better ride!
- Each kit includes a rear track bar brace to strengthen the original track bar mount. A must for off road performance on a JK.
- Kit includes sway bar disconnects for more articulation off road.
- ORV uses tough, over built extended control arms for added strength and higher performance. Each arm has a beefy 3/16" wall thickness and each end is tapered before welding. This extra heavy-duty design ensures a long life both on and off road.
- In most cases control arms are longer than factory to adjust for caster. This is not always true for other brand lifts! Each arm bushing can be easily greased without removing the arm from the vehicle.
- 4-Door JK's will get on average a 4" lift. Two door models will get up to a 5" lift. All lifts are dependent on specific Jeep® characteristics and additional parts being put on the vehicle (bumpers, winch, hard tops, soft tops etc.).
- Due to the changed pinion angle, we highly recommend a new drive shaft be installed when using any 4" or greater lift kit on a 4-Door Wrangler. A new drive shaft will be required on any 2007-10 2-Door Wrangler due to the shorter wheel base.
- All 4" Kits require a drop pitman arm (sold separately, see Page 100).
- ORV kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

JK 4"/5" Lift Kit

07-10 Jeep® Wrangler JK/Rubicon, 4WD (2 & 4-Door models)	Kit w/o Shocks	Kit w/ Shocks	Max Tire Size HxWxD	Max Wheel Offset	Est. Install Time
2.5"-3.5" Lift, 07-10 Jeep® Wrangler, 2 & 4-Door	18401.50	18415.50	34"x12.5"x16"	4.5"	6 Hrs.
4"-5" Lift, 07-10 Jeep® Wrangler, 2 & 4-Door*	18401.60	18415.60	35"x12.5"x16"	4.5"	8 Hrs

Note: due to vehicle weight, the 2-Door models may receive an additional 1" lift over 4-Door models

* Will require a drop pitman arm. Sold Separately

18401.50 Kit includes: (4) coil springs, rear track bar bracket, rear bump stop bracket, rear track bar brace, hardware kit

18401.60 Kit includes: (4) coil springs, (2) lower front links, (2) lower rear links, (2) rear bump stop brackets, (2) rear bump stop spacers, front track bar bracket, rear track bar bracket, (2) front double disconnect end links, (2) rear extended sway bar end links, rear track bar brace, hardware kit

CAUTION!
CAUTION: Rugged Ridge™ recommends use of wheel spacers with all suspension lifts to reduce risk of roll over or other accident associated with modifying ride height for increased off road capabilities. See additional product safety information and WARNINGS at back of catalog.

CV Equipped Drive Shafts for 07-10 Wranglers

Reduce or eliminate driveline vibration with a CV-equipped driveshaft. Constant Velocity (CV) joints use two U-joints (double cardan style) in the place of a single U-joint. This smooths out the driveline angle and reduces vibration due to extreme lifts or driveline changes. Works with stock to 6" lift.

CV Equipped Drive Shafts	Part #
07-10 Wrangler, Front 2/4-Door	16592.22
07-10 Wrangler, Rear 2-Door	16592.21
07-10 Wrangler, Rear 4-Door	16592.20

16592.21 CV Equipped Rear Drive Shaft for 07-10 Wrangler 2-Door

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 97-06 Wrangler TJ, 2" spacer lifts are designed for a larger tire than factory and light off road use. The 2" coil kit is designed for a larger tire and moderate off road use. The 4" coil kit is designed for more severe off road use and up to a 34" x 12.5" x 15" tire.

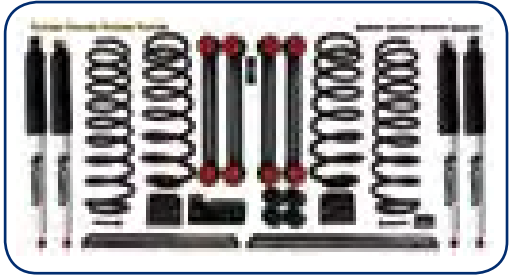

ORV 2" Poly Spacer for 1997-2006 Wrangler 18415.33

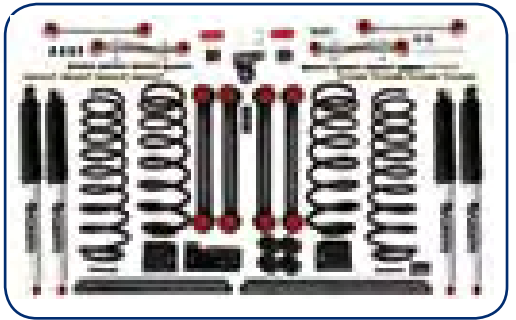

- Low cost kit that provides a small lift for over sized tires
- Each kit contains 4 spacers and four bump stops
- Spacers are made of durable polyurethane for a long life

ORV Coil Spring Lift Kits Feature:

- Get off road performance while not sacrificing on road ride! This kit will provide as close to factory a ride as you can get while providing off road articulation.
- Includes four powder coated, E-coated 5160H hot rolled bar, 5/8" coil springs that are set to original factory rates. By using 5160H hot rolled bar, ORV springs keep their memory eliminating any possibility of future sag.
- By setting the coil springs to factory rates, you get the best on road ride possible and the ability to use a larger tire.
- ORV uses tough, over built extended control arms for added strength and higher performance. Each arm has a beefy 3/16" wall thickness and each end is tapered before welding; this extra heavy-duty design ensures a long life, both on and off road.
- In most cases control arms are longer than factory to adjust for caster. This is not always true for other brand lifts! Each arm bushing can be easily greased without removing the arm from the vehicle.
- Each 2" Coil Spring Lift Kit includes 1" transfer case lowering brackets. These are not spacers but full-length brackets that actually solidly secure your transfer case. ORV uses these brackets rather than spacers as spacers can create flex therefore putting undue stress on the drive line.
- Each 4" Coil Spring Lift Kit includes 1.5" transfer case lowering brackets. These are not spacers but full length brackets that actually "true" your transfer case. ORV uses these brackets rather than spacers, as spacers can create flex therefore putting undue stress on the drive line.
- Kit includes two sway bar disconnects for more off road articulation.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 1997-2006 Wrangler/Unlimited.
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry (sold separately).
- All ORV Kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer for your glove box!

Body Lifts for 1997-06 Wrangler

18303.11 Body Lift Kit, 1997-06 Wrangler

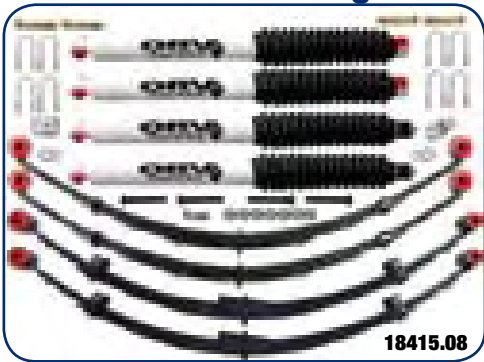

Need some extra clearance for your oversized tires? This all new Rugged Ridge body lift includes everything you need to fit up to 33" diameter tires. By allowing a taller tire you'll get that extra ground clearance you need when facing off road obstacles.

3" Body Lift	Part #
97-06 Wrangler with automatic, 97-04 5-speed or 6-speed transmission, Kit	18303.11
97-04 Wrangler with 5-speed, 97-06 Wrangler with automatic transmission, Kit	18303.10
Upgrade kit for all Wrangler with 6-speed manual transmission, Kit	18303.20
(18303.10 + 18303.20 = 18303.11)	

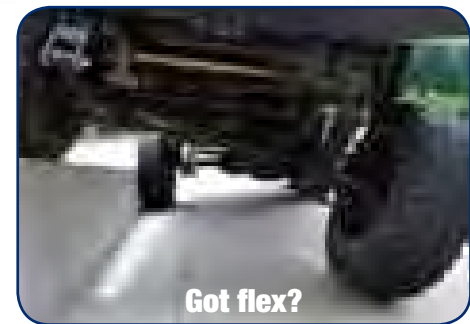

WARNING HIGHER FOLLOVER RISK

Rugged Ridge™ does not recommend combined use of body lifts with suspension or other lift devices or modification, alteration or fabrication of any Rugged Ridge™ product to achieve additional lift. See additional product safety information and WARNINGS on page 101.

1955-95 CJ/Wrangler

18415.08

Got flex?

18401.20

What to Buy:

When looking at which kit is best for your application you need to determine two important things: size of tire and use of vehicle. On the 1976-95 CJ/Wrangler, the 2" - 2.5" Leaf Spring kits are designed for a tire size up to 31" and moderate off road use. The 1955-95 CJ/Wrangler 4" Leaf Spring kits are designed for more severe off road use and up to a 33" x 12.5" x 15" tire.

ORV™ Leaf Spring Lift for 1955-1995 CJ / Wrangler

- Get off road performance without sacrificing on road ride! These kits provide as close to a factory ride as possible.
- Includes 4 powder coated, shot-peened leaf springs with Teflon inserts and pre-installed degree wedges.
- Each leaf spring has Teflon between each leaf for a factory ride, better performance.
- Pre-installed degree wedges provide ease of installation and no more parts to buy. These wedges help to correct any pinion angle issues that may arise due to the lift.
- By shot-peening the leafs before assembly, it assures that the leaf springs will not sag over time.
- All ORV U-bolts are grade-8 and E-coated to ensure they will be able to take off road abuse.
- Due to the changed pinion angle, we highly recommend a new drive shaft and a slip yoke eliminator kit be installed when using any 4" or greater lift kit on a 87-95 Wrangler (see below).
- All 4" Kits will require the purchase of a drop pitman arm to ensure proper steering geometry (sold separately, see below).
- Note: Actual lift height is dependent on specific Jeep® characteristics and additional parts being put on the vehicle (bumpers, winch, hard tops, soft tops etc.).
- ORV kits with shocks include a pair of Neoprene Wrapped Grab Handles and an Off Road Organizer!

	Kit w/o Shocks	Kit w/ Shocks	Max Tire Size-HxWxD	Max Wheel Offset	Est. Install Time
87-95 Wrangler, 2"-2.5" Lift	18401.20	18415.20	31"x10.5"x15"	3.75"	4 Hrs.
87-95 Wrangler, 4" Lift*	18401.25	18415.25	33"x12.5"x15"	3.75"	6 Hrs.
76-86 CJ5, CJ7, CJ8, 2"-2.5" Lift	18401.08	18415.08	31"x12.5"x15"	3.75"	4 Hrs.
76-86 CJ5, CJ7, CJ8, 4" Lift*	18401.15	18415.15	33"x12.5"x15"	3.75"	4 Hrs.
55-75 CJ5, CJ6, 4" Lift*	18401.14	18415.14	33"x12.5"x15"	3.75"	4 Hrs.

* 87-95 Wrangler 4" Lift see SYE kits & CV driveshafts on page 85.

* 72-76 models will require a drop pitman arm. Sold separately. (See below)

18401.20 Kit includes: (4) leaf springs, (8) U-bolts, hardware kits.

18401.25 Kit includes: (4) leaf springs, (8) U-bolts, hardware kits, (2) track bar extension brackets.

18401.08/.15 Kit includes: (4) leaf springs, (8) U-bolts, hardware kits.

18401.14 Kit includes: (4) leaf springs, (8) U-bolts, hardware kits.

WARNING: See page 95 for important safety information.

Drop Pitman Arms

Lifting a vehicle takes more than just slapping on taller springs. The stock steering linkage is designed for use with the stock height suspension. The steering linkage angles of a lifted vehicle are more extreme and influenced by suspension travel. This drop pitman arm helps reduce the angle of your drag link and reduce bumpsteer created when a suspension lift is installed.

18006.50

Drop Pitman Arms

Part

07-10 Wrangler w/Power Steering, 3.5"-6" of Lift	18006.55

ORV™ SUSPENSION SYSTEMS BY RUGGED RIDGE™ LIMITED LIFETIME WARRANTY

Your Omix-Ada®/Rugged Ridge™ product is covered by the Lifetime Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Omix-Ada®/Rugged Ridge™/ORV™ makes in connection with your product purchase. Parts sold by Omix-Ada® or Rugged Ridge™ but supplied by other vendors are exclusively warranted by the vendor supplying the part. Omix-Ada® neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with this product or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Omix-Ada® warrants to the initial retail purchaser only that its Rugged Ridge™ suspension kits, and ORV™ shocks and stabilizers shall be free of defects in material and workmanship for so long as the initial retail purchaser owns the vehicle on which these products were originally installed. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Omix-Ada®, Inc., 460 Horizon Dr., Suite 400 Suwanee, GA 30024. Omix-Ada® reserves the rights to: (a.) require proof of purchase as a condition of this Limited Warranty, (b.) make future revisions to its Limited Warranty without prior notice.

What is not covered? Your Omix-Ada®/Rugged Ridge™/ORV™ Limited Warranty does not cover any Rugged Ridge™/ORV™ suspension systems that are used or combined with non-ORV™ suspension components. Furthermore, ORV™ suspensions not installed with ORV™ or other recommended shock absorbers may void the Limited Warranty. Products that wear out or fail due to the use of larger tires or wheels are not covered by this Limited Warranty. Your Omix-Ada® Limited Warranty further does not cover products or parts supplied to Omix-Ada® by outside vendors or products, parts or vehicles Omix-Ada® determines to have been damaged by or subjected to:

- Installation damage, alteration, modification or failure to maintain.
- Normal wear and tear (bushings, tie-rod ends, etc.). Scratches or defects in product finishes (powder coating, plating, etc.) or damage due to shipping.
- Damage arising or related to non-Omix-Ada®/Rugged Ridge™/ORV™, including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Racing or other vehicle competitions or contests. Accidents, impact by rocks, trees, obstacles or other aspects of the environment.
- Theft, vandalism or other intentional damage.
- Products used in application other than those recommended in the current/Rugged Ridge™/ORV™ catalog or the instructions accompanying your Rugged Ridge™/ORV™ product.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Omix-Ada® inspection and at Omix-Ada®'s option, be either repair or replacement of product or parts covered under this Limited Warranty. Customers requesting warranty consideration on Omix-Ada® branded parts (including Rugged Ridge™ and ORV™) should first contact the independent distributor from whom you purchased your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. Customers requesting warranty consideration on non-Omix-Ada® branded parts should refer to the manufacturers' Limited Warranty and contact them directly. If a replacement part is needed before the Omix-Ada® part can be returned, you must first purchase the replacement part. Then, if Omix-Ada® deems the part warrantable, you will be credited the purchase price.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Omix-Ada® nor any independent Omix-Ada® distributor/licensee are responsible for any time loss, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with any part or product purchased. Your exclusive remedy hereunder for covered parts is repair/ replacement as described above.

- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

Only Outland™ Side Tube Steps can offer you both 3" and 4" round Tube Steps for your truck

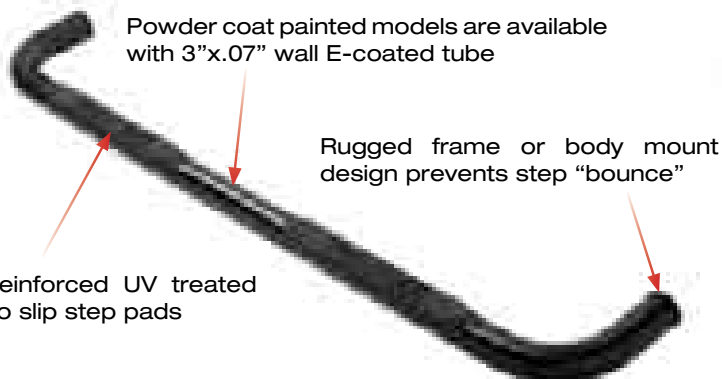

Whether you own a "beef up" lifted truck or a stock design, Outland Automotive makes a tube step for you! Our complete line of high quality 3" Tube Steps are the perfect solution for any truck or SUV looking for a sturdy step and great looks. Our 4" steps offer Crew Cab owners a little "extra beef" when they want that heavy duty and extra step space! All Outland Tube Step designs feature the highest quality finish, easy to install brackets and a complete application listing for today's (and yesterdays!) most popular trucks and SUV's: These are not your typical Tube Steps!

The Outland™ Quality Advantage:

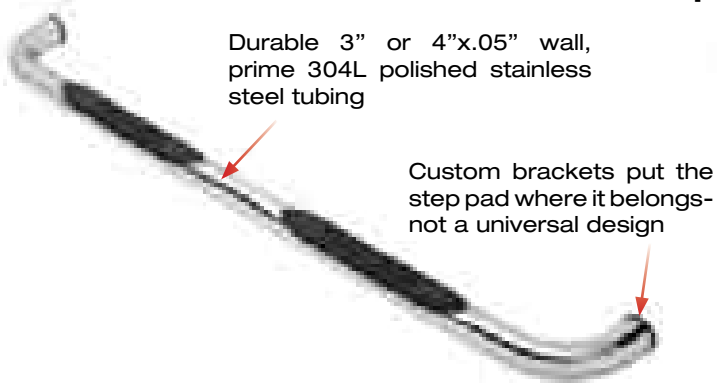

- Outland Stainless Tube Steps feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for an Outland step is longer and deeper pulling out the deepest shine from the steel. A true "deep polish"! Since Outland uses 304L stainless, these side steps will never rust, providing years of use and great Looks.
- Outland painted steel Tube Steps feature special E-coated, .07" wall steel that is "thick source" powder coat painted for a tough chip resistant finish. The special E-coat under coating provides double rust protection as it bonds to the metal creating a protective layer found no where else.
- All Outland Tube steps feature no drill installation (except 76-06 Jeep models) for ease of installation and a truly custom fit. All Tube Step Installation brackets are constructed of durable 3/8"-1/4" powder coat painted steel for long life and years of bounce free use.
- Each Tube Step feature special UV treated no-slip step pads with 5 mounting pins. These step pads are installed on a compressed portion of the tube - no exposed metal to rust.

Truck/SUV Bull Bars

The Outland™ Quality Advantage:

- Outland Stainless Bull Bars feature prime 304L, .05" wall stainless tubing polished to a mirror finish. The polishing process for an Outland Bull Bar is the same used on their high quality tube steps pulling the true shine out of the metal. By using only prime 304L stainless, these stainless Bull Bars will never rust, providing years of use and great looks.
- Outland painted steel 3" Bull Bars feature special E-coated, .07" wall steel that is "thick source" powder coat painted for a tough chip resistant finish. The special E-coat under coating provides double rust protection as it bonds to the metal creating a protective layer found no where else.
- All Outland Bull Bars have ground smooth welds that provide a "seamless" look on the vehicle giving you the best looking Bull Bar on the market! By grinding these welds smooth on the Black powder coat painted models, you virtually eliminate any rust points. Great looks, long life, that is what Outland is all about.
- Outland Bull Bars feature no hassle installation. Each Bull Bar is custom fit for the specific vehicle making sure the mount points are the strongest available. Tough 3/8"-1/4" powder coat painted mounting brackets and oversized hardware ensure that the Bull Bar provides years of vibration free use.
- Each Bull Bar includes a matching skid plate for added protection and dynamic good looks. Each skid plate is laser cut to ensure clean smooth lines and a no hassle installation.

Complete the look of your Truck or SUV with an Outland Bull Bar! The "overbuilt" grille guards provide front end protection from brush and small trees while giving your vehicle a true off road look. Only Outland gives you two Bull Bar size options: 4" for those oversized trucks and 3" designs in both polished stainless steel and durable black powder coat finishes. All Outland Bull Bars feature a one piece design with ground smooth welds and a durable skid plate for added protection. When you need the best, look to Outland!

Use in the back seat of SUV's and cars to eliminate clutter

Large dual storage area holds CD's, cassettes, and cell phones

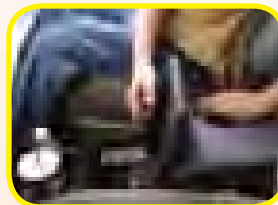

Bottom mount strap allows for center seat belt mounting

Mini Van Console

Contractors Console	Charcoal	Tan	Blue
Rugged Ridge Part #	33101.09	33101.04	33101.05

- Removable soft sided CD holder keeps CD's clean and organized.
- Front storage compartment holds sunglasses, cell phones, coins, and other small items.
- Cavernous rear storage compartment holds tissue, trash, drinks, and other larger items.
- Dual adjustable front & rear cup holders hold most cups and bottles.
- Constructed of heavy duty padded vinyl to match your interior and provide long life.
- Dense foam arm rest gives greater comfort and is better looking.
- Dimensions - 29" Length x 9" Width x 14" Height.

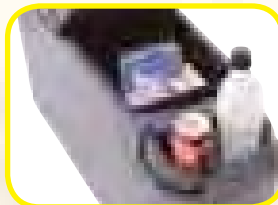

Large front storage area opens to a removable CD Holder

Keeps valuables out of sight and organizes your vehicle

Dual adjustable rear cup holder for back seat

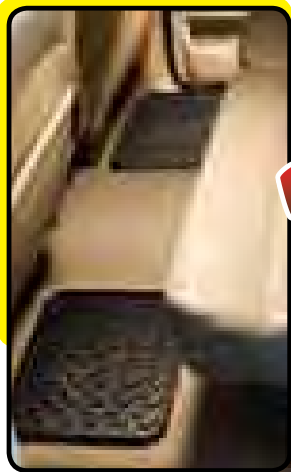

All Outland consoles feature dual adjustable cup holders that adjust to almost any cup size!

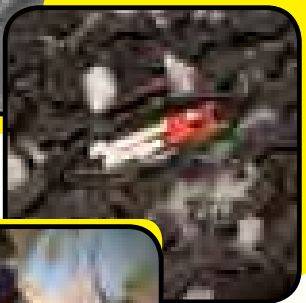

All Terrain Floor Liners

This is not your typical floor liner! Ordinary floor liners in the market today are constructed of extruded plastic materials vacuum formed to fit the vehicle. Rugged Ridge has taken a completely different approach to floor protection. Each All Terrain Floor Liner is injection molded for superior fit and quality. The injection molded process, though more expensive to develop, allows us to create a floor liner that has exacting measurements for better fit and finish along with a deeply formed perimeter wall for maximum coverage. Each All Terrain Floor Liner has chevrons that are up to 3/8" deep. That is up to 3 times the depth of other floor liners! We call this true "Deep Tread Technology"!

All 2" Receiver Hitches	7700

Aerodynamic Roof Top/Storage Bag

This storage system is designed for complete weatherproof protection of your cargo. The sloped front deflects water and air up and over the bag. Constructed of durable fiberglass reinforced waterproof tarpaulin material that ensures durability and weather resistance. With over 11 cubic feet of extra storage space this is a perfect alternative for expensive plastic pods. No-drilling required - attaches with heavy duty polypropylene straps to your existing roof rack.

Aerodynamic Roof Top Storage Bag	Part #
	12111.01

Auto Backpack Roof Top Storage System

This system comes in two different models, depending on your cargo requirements. The outer material is a combination of soft neoprene material to protect your paint and durable nylon for long life. Each Auto Backpack features four tie down points to make installation easy and secure. Designed to provide quick alternative storage, these easy to use and store roof top storage bags are a must for those road trips. With 13 cubic feet of storage space, this is a perfect alternative to those expensive and hard to store plastic pods.

Roof Top Storage System	Part #
(39"x32"x18"), 13 CuFt.	12110.01
(54"x48"x20") 20 CuFt	12110.02

Tailgate Nets

- Sport styling improves trucks appearance.
- Improves gas mileage by reducing tail gate drag.
- Great visibility for added safety.
- Constructed of durable die-cut polyester laminate, resists fading and stretching.
- Easy to install - some drilling required.

Universal Chrome Truck Step

- Constructed of highly polished chromed steel.
- Contoured to complement today's truck exteriors.
- One size fits most trucks/SUV's.
- Non-skid tape supplied for added safety.
- Easy to install - some drilling required.
- Sold individually.

Universal Truck Step	Part #
Universal Truck Step Chrome	31501.01

Manual Locking Hubs

Knee deep in mud with a failed automatic hub and a disabled vehicle? The only way to repair it is to replace it. The question is, with what? Factory automatic hubs have a history of failing when you need them most. A damaged hub will render your 4x4 useless and leave you stranded. Wish you could swap your venerable automatic hubs to a set of manual locking hubs? Rugged Ridge has heard your plea. Rugged Ridge Manual Locking Hubs are unanimously recognized as the world's toughest hubs by our thousands of satisfied customers worldwide. Brute strength matters, that is why the bodies of our hubs are crafted from impact resistant nodular iron, and feature a corrosion resistant die cast aluminum cap. Our hubs deliver better 4WD performance when locked and improved fuel economy in 2WD when unlocked, than automatic hubs. Purchasing a set of premium manual hubs is more cost effective than servicing your worn factory hubs. With the money you save you'll be able to carry a spare set, not that you'll need them. Sure you have to get out of the cab to lock the hubs, but unlike automatic hubs you won't have to wait until you lose traction for your four-wheel drive to engage.

Rugged Ridge Premium Hubs Feature:

- A full metal cap and body crafted from impact resistant nodular iron.
- Corrosion resistant die cast aluminum caps coated with high luster epoxy enamel for along lasting finish.
- Better 4WD performance when the manual hubs are locked. Works in reverse and compression braking.
- No slippage or partial engagement / disengagement issues that plague automatic hubs.
- Better fuel economy by freewheeling in 2WD mode. Great for any "tow vehicle".
- Decreases wear on internal components by engaging 4WD only when needed.
- More durable and cost effective than replacing or servicing automatic hubs.
- Ridiculously simple installation. Your average installation is completed in less than 20 minutes.
- Manual hubs offer extra gear ranges. By unlocking your hubs and driving in 4WD mode, you gain use of 2WD Low and 2WD High ranges.
- 1998-00 Ford Ranger (15001.70) application is exclusively available from Rugged Ridge!

Replacement Synthetic Winch Ropes For ATV/UTV

Stronger and lighter, the two key elements of Synthetic Rope that make it the choice of competition off road vehicles everywhere. Rugged Ridge high strength Synthetic Winch Rope is constructed from genuine Dyneema SK-75 fiber imported from the Netherlands. This revolutionary fiber is the choice of off-road enthusiast worldwide. It is stronger and lighter than wire rope and never kinks or splinters! Our synthetic line is woven from twelve UV-treated strands, resulting in increased strength, and a power to weight ratio unmatched by wire rope. Each synthetic rope comes with a protective sleeve that prevents it from over heating on the winch drum, black powder coated latched hook, stainless steel thimble, and is pre-terminated end for ease of installation. Synthetic rope does not store energy like steel cables, and in the event of a failure it is much less likely result severe injuries caused by the whiplash of broken wire rope. Each replacement rope kits can be easily attached to your current winch by removing your current steel cable and roller fairlead. A new Hawse Fairlead will be required for use with Synthetic Rope

Front Fender Guards for Yamaha® Rhino

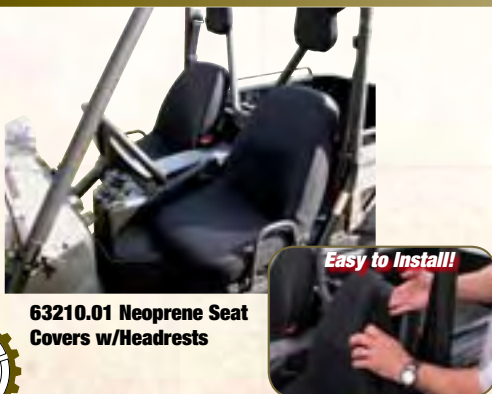

Heavy-duty 12 gauge steel construction keeps rocks and debris from damaging your plastic inner fenders. Corrosion resistant finish. This is a must buy for anyone who takes their UTV off road!

Front Fender Guards	Part #
For Yamaha Rhino, Pair	62004.01

Custom Seat Covers for Yamaha® Rhino

These covers are constructed of durable neoprene or soft poly-cotton front and back for the best looking seat cover available. Rugged Ridge does not use cheap stretch nylon on their seat covers! Soft poly-cotton protects and prevents the original vinyl seat from getting over heated, no more burned legs! Neoprene (wetsuit material) is a great fabric to protect your seats from dirt, water and whatever mother nature can throw at you. Each cover is custom tailored for your Rhino's original equipment seat style making your seats look like they have been recently reupholstered. Installation is easy with special designed elastic cords, and nylon straps that attach to your seat and to the seat cover mounting points. Available in light grey or black to match the interior of your UTV. Packed in pairs with headrest covers.

Drivetrain Engineering Perfected

Are you looking for an axle or ring and pinion rugged enough to match your off the beaten path sense of adventure? Alloy USA® axle shafts and Precision Gear® ring & pinions have been propelling muscle cars, trucks and four wheel drive vehicles down highways, drag strips, back roads and over the world's roughest terrain for nearly a decade. With the recent asset and intellectual property purchase of Alloy USA® and Precision Gear® by Ultra Axle LLC, an affiliate of Omix-Ada® Inc., these two brands are now backed by an industry leading, financially strong company that will be there for you in the long haul. As a member of the Omix-Ada® group of companies Alloy USA® and Precision Gear® will provide the service and support you demand! The dedicated team of Alloy USA® and Precision Gear® engineers have developed, tested, raced and trail ridden each of our products until they were perfected. We marry the mechanics of engineering with the art of manufacturing to produce the finest in drivetrain solutions. High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock. We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving the Alloy USA® logo and a slick black anodized or natural finish.

Why have we put so much time and energy into developing our Axle Shafts and Ring & Pinions? Because horsepower is useless if you can't get it to the ground. We take pride in engineering solutions and prove it by backing each product with an industry leading warranty. Each axle is covered by our exclusive 10-year limited warranty and each ring and pinion is covered by a 5-year limited warranty so you can drive with confidence!

WELCOME TO THE NEW ALLOY USA® & PRECISION GEAR®!

THE BEST WARRANTY IN THE BUSINESS

Alloy USA®/Precision Gear® Limited Warranty

Your Alloy USA® or Precision Gear® product is covered by the Limited Warranty explained below that gives you specific legal rights. This limited warranty is the only warranty Ultra Axle® LLC (the distributor/warrantor of these products) makes in connection with your purchase. Ultra Axle® LLC neither assumes nor authorizes any vendor, retailer or other person or entity to assume for it any other obligation or liability in connection with its products or Limited Warranty.

What is covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, Ultra Axle® LLC warrants to the initial retail purchaser only that products sold under its Alloy USA® and Precision Gear® trademarks including Axle Shafts, Ring and Pinions, Installation Kits, Jeep® Overhaul Kits, Alloy USA® X Joints and Differential Covers shall be free of defects in material and workmanship for the Limited Warranty term/duration described below. This Limited Warranty shall be measured from the date of initial retail purchase, extends only to the initial retail purchaser and is not transferable. All other express or implied warranties are hereby disclaimed. Your warrantor for these parts is Ultra Axle® LLC, 460 Horizon Dr., Suite 400 Suwanee, GA 30024 (770/614-6101). Ultra Axle® reserves the right to: (a.) require proof of purchase as a condition of this Limited Warranty, (b.) make future revisions to its Limited Warranty without prior notice.

Duration of Limited Warranty by Product Line

Alloy USA®, front and rear axles- **10 Year Limited Warranty**

Precision Gear® and Alloy USA® Ring and Pinions- **5 Year Limited Warranty**

Jeep® Overhaul kits, Alloy USA® X Joints, Tube Seals and Differential Covers- **3 Year Limited Warranty**

What is not covered: Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person other than Alloy USA® or Precision Gear® parts purchased by the initial retail purchaser. Your Alloy USA®, Precision Gear® Limited Warranty does not cover damage or claims to any component, vehicle or person Ultra Axle® LLC determines to have been damaged by or subjected to:

- Installation damage, alteration, modification, misuse or failure to maintain.
- Products used in application other than those recommended in the current Alloy USA®/Precision Gear® catalog or the instructions accompanying your Alloy USA®/Precision Gear® product.
- Normal wear and tear/product life deterioration, scratches or defects in product finishes (powder coating, plating, etc.) or damage due to shipping.
- Damage arising or related to non- Ultra Axle® LLC products including but not limited to any vehicle's electronic stability system, related components or other vehicle systems.
- Accidents, impact by rocks, trees, obstacles or other aspects of the use environment.
- Theft, vandalism or other intentional damage.

Remedy Limited to Repair / Replacement. The exclusive remedy provided hereunder shall, upon Ultra Axle® LLC inspection and at Ultra Axle® LLC option, be either repair or replacement of the Ultra Axle® LLC parts covered under this Limited Warranty. Customers requesting warranty consideration should first contact the independent distributor selling your part to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. If a replacement part is needed before the Ultra Axle® LLC part can be returned, you must first purchase the replacement part. Then, if Ultra Axle® LLC determines the part warrantable, you will be credited the purchase price of that part.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither Ultra Axle® LLC nor any independent distributor are responsible for any loss of use or time, rental costs, or for any incidental, consequential, punitive or other damages you may have or incur in connection with your vehicle or any Ultra Axle® LLC product. Your exclusive remedy for Ultra Axle® LLC parts covered hereunder is repair/replacement as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the duration and other enforceable terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

Lock Right® Lockers

The Powertrax Lock-Right Lockers performance is equal to a solid spool axle, yet automatically unlocks to allow full differentiation in turns. The locker also reduces the excessive noise, tire wear, and drivetrain damage associated with other lockers. Powertrax lockers replace the spider gears in your differential carrier without affecting your ring and pinion settings. The whole job can be done in your driveway with common hand tools in a couple of hours. A carrier is not included. Whether it be snow, sand, mud, ice, etc... the LOCK-RIGHT will give you the traction you need.

Front Axle Kits

High tensile strength 4340 Chromoly is heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock 1040 axles. Each axle shaft is backed by Alloy USA's™ exclusive ten-year warranty! We use the latest splining technology to produce splines that are stronger than traditional cut splines. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized finish. Our front axle shaft kits include everything you need to complete the job: both passenger and drive side inner and outer axle shafts, seals, U-joints and clips.

Front Dana 60 Shafts

Our Dana 60 shafts feature the same high strength 4340 Chromoly shafts used in our front axle kits. These heavy-duty shafts are 40% stronger than OE and are made to stand up to abuse. You run a Dana 60 because you wanted the strength, don't let weak 30 spline axles ruin your day. Upgrade to our 35 spline count axles and wheel with confidence. Each Alloy USA™ axle is backed by an industry leading 10-year warranty. We use the latest splining technology to produce splines that are stronger than traditional cut splines. Our shafts are heat-treated, tempered and induction hardened to produce these heavy-duty axles that are up to 40% stronger than stock.

Performance Rear Axle Shafts

**TEN YEAR
MANUFACTURER WARRANTY**

Rule #1: If it broke it needed to be upgraded. For less than the cost of an original replacement axle shaft you can upgrade to an Alloy USA™ performance shaft. Each axle is heat-treated, tempered and induction hardened to have twice the tensile strength than stock and is up to 35% stronger. We use the latest splining technology, to produce splines that are stronger than traditional cut splines.

Performance Rear Axle Kits

10 TEN YEAR
MANUFACTURER WARRANTY

Why do you need Alloy axle shafts? Because horsepower is useless if can't get it to the ground. Our performance rear axle kits feature 1541H alloy steel and have been propelling cars to victory for nearly a decade. 1541H is a high carbon steel that contains significantly more manganese than 1040 steel found in your stock axles. This increases ductility and translates the ability to absorb stresses. Our heat-treated and induction hardened shafts have twice the tensile strength than stock and are up to 35% stronger. We use the latest cold spline rolling technology to produce splines that are stronger than traditional cut splines. No cuts means no edges, which create stress points and can lead to fracturing. The shafts are then precision CNC machined and magnaflux inspected for cracks before receiving a slick black anodized or natural finish. Our rear axle shaft kits include everything you need for your installation: both passenger and drive side shafts, seals, bearings and wheel studs.

Performance Rear Axle Shafts

TEN YEAR
MANUFACTURER WARRANTY **10**

Axle shafts sold individually. Wheel bearings, seals and wheel studs available separately.

Don't just replace your axle shafts, upgrade them. For less than the cost of an original replacement axle shaft you can upgrade to an Alloy USA™ performance shaft. Our axles are made from 1541H or 4140 steel depending on the application. Each axle is heat-treated and induction hardened to have twice the tensile strength than stock and is up to 35% stronger. We use the latest cold spline rolling technology to produce splines that are stronger than traditional cut splines. No cuts means no edges which create stress points and can lead to fracturing. Each shaft is backed by our exclusive 10-year warranty.

Jeep® Ring & Pinions

These affordable high strength gear sets come in all the popular ratios to satisfy everyone's gearing needs. Oversized tires require higher ring & pinion ratios to restore performance. Made from high quality 8620 forgings and Gleason gear cutting technology, these gears are made to last. Complete installation kits are available separately to complete the job. Exclusive 5-year warranty. Available in 3.73, 4.10, 4.56, 4.88 and 5.13 ratios.

Wheel Spacers

**THREE YEAR
MANUFACTURER WARRANTY**

NEW!

- Moves your wheels out to help fit wider tires-creates extra stability.
- Hub centric design to assure wheel balance.
- Constructed of durable 6061T6 aluminum for long life, extra strength and corrosion resistance.
- Available in 1.25" to 1.5" widths for today's most popular wheel sizes.
- Each pair includes pre-installed grade 8 wheel studs, 10 lug nuts and thread locker.
- Wheel adaptors convert current bolt patterns to alternate bolt patterns for use with different wheels.
- Wheel Spacers and Wheel adaptors are sold in pairs.

**COMING
SOON!**

(2) Note: Will not fit 87-95 Wranglers with O.E. front disconnect axle. Must upgrade to 1 pc 30 spline grand axle. For use with all grande 30 spline axle upgrades & Rubicon Dana 44's.

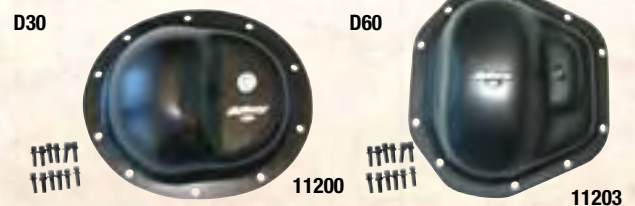

Alloy HD Differential Covers

Indestructible! You won't break these covers, we guarantee it. Made from either 3/8" cast steel or 5/16" stamped steel, painted black inside and out, these heavy-duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These indestructible covers have been ".44 caliber tested" - if they can take a bullet at point blank range (don't try this at home!), they can take all that the trail has to offer. Available for most popular Dana differential types and include extra reinforcement protection for the fill plug area. All mounting hardware and instructions are included for ease of installation.

YOU PAID THOUSANDS OF DOLLARS FOR YOUR 4-WHEEL DRIVE! SHOULDN'T IT WORK WHEN YOU NEED IT? WHETHER YOU USE YOUR 4-WHEEL DRIVE ONCE A YEAR OR DAILY, 4X4 POSI-LOK IS THE ONLY SURE THING.

- A permanent replacement for the failure prone O.E. vacuum and electric front axle engagement systems.
- Allows you to engage the front axle from inside the cab.
- Engagement every time because you are in direct control.
- A 1" pull of the cable ensures you will have 4-wheel drive when you need it, as long as the transfer case is engaged.
- It is not a posi-trac or locker.
- Simple and easy to install.
- A patented front axle engagement system

4X4 POSI-LOK IS A CABLE OPERATED AXLE ENGAGEMENT SYSTEM TO REPLACE THE FAILURE PRONE VACUUM C.A.D. SYSTEM. IT ALSO ALLOWS THE USE OF 2 WHEEL (REAR) LOW RANGE AND A FRONT LOCKER.

Ring & Pinion

Install Kit Includes:

- Carrier Bearings
- Pinion Bearings
- Pinion Nut
- Pinion Seal
- Preload Shims or Crush Collar
- Pinion Shims
- Gasket or RTV
- Marking Compound
- Differential Shims (where applicable)
- Locktite
- Oil Slingers (where applicable)
- Ring Gear Bolts (where applicable)

Master Installation Kits: Precision Gear understands the complexity of rebuilding your differential. To help solve this difficulty and eliminate multiple trips to the parts store we have including everything you need to complete you ring & pinion installation and get you back on the road quick all in one great kit. Master installation kits include:

Precision Gear Ring and Pinions: Precision Gear understands the rigors of racing. Horsepower is useless unless you can get it to the ground. Most companies providing ring and pinions today look for the cheapest source without consideration of quality. They “stand behind” their product until the day you buy it and install it on your car. -At Precision Gear each ring and pinion we sell is backed by an exclusive five year warranty! Our gears are made from high quality 8620 forgings and Gleason gear cutting technology because are gears are made to last!

OMIX-ADA®

The following 111 pages contain all the parts you need for restoring/repairing your Jeep®! From 1941 to current, Omix has you covered. If you know Jeep, you know Omix!

AUTHENTIC RESTORATION PRODUCT

This emblem is Mopar's "Seal Of Approval" that the product meets their standards and is truly a licensed product. Parts identified with the Mopar Authentic Restoration Product emblem are the only parts in this catalog officially authorized and licensed by ChryslerLLC.

A Few Words About Product Safety: To help you make informed decisions about safety; this catalog and the instructions accompanying our products have provided certain information in the form of "Notices", "Warnings" and "Cautions". This information alerts you to potential hazards that could hurt you or others.

NOTICE This is a caution against anything which may cause damage to the vehicle or its equipment if the caution is ignored. The Notice includes information about how you can avoid or reduce those risks.

WARNING This is a signal telling you that you CAN be KILLED or SERIOUSLY HURT if you don't follow the Warning. The Warning includes information about what you must or must not do in order to reduce the risk of injury to yourself and others.

CAUTION This is a signal telling you that you or others CAN be HURT if you don't follow the instruction. The Caution includes information about how you can avoid those risks.

A FEW WORDS ABOUT PARTS AVAILABLE FROM THIS CATALOG.

PARTS IDENTIFIED AS MOPAR® APPROVED AUTHENTIC RESTORATION PRODUCTS™ REFLECT THAT THE PRODUCT IS LICENSED BY MOPAR® FOR MANUFACTURE BY THIRD PARTIES AND MEETS MOPAR® STANDARDS. OMIX-ADA® AND ITS LICENSEES ARE NOT AFFILIATED WITH CHRYSLER LLC. ALL PARTS LISTED ARE AFTERMARKET ORIGIN AND PART NUMBERS ARE FOR PURPOSES OF CROSS-REFERENCE ONLY. THE RUGGED RIDGE™ AND OUTLAND™ PARTS ARE OMIX-ADA® BRANDED PRODUCTS MANUFACTURED BY QUALIFIED THIRD PARTIES. PARTS LISTED UNDER PAGES 132-242, OTHER THAN MOPAR® APPROVED RESTORATION PARTS, ARE SUPPLIED BY QUALIFIED OMIX-ADA® VENDORS WORLDWIDE. (SEE LIMITED WARRANTY SUMMARY AT REAR OF THIS CATALOG).

THIS CATALOG MAY BE REPRODUCED BY INDEPENDENT RETAILERS UNDER LICENSE FROM OMIX-ADA®.

THIS CATALOG REPRODUCED UNDER LICENSE FROM OMIX-ADA INC.

PARTS IDENTIFIED WITH THE MOPAR AUTHENTIC RESTORATION PRODUCT EMBLEM ARE THE ONLY PARTS IN THIS CATALOG OFFICIALLY AUTHORIZED AND LICENSED BY CHRYSLER LLC.

ALL RIGHTS RESERVED. NO PART OF THIS CATALOG MAY BE REPRODUCED BY ANY MEANS, ELECTRONIC OR OTHERWISE, WITHOUT EXPLICIT WRITTEN AUTHORIZATION FROM OMIX-ADA, INC. © COPYRIGHT OMIX-ADA, INC.

BY ORDERING FROM THIS CATALOG THE PURCHASER AGREES TO THE FOLLOWING TERMS AND CONDITIONS: THIS CATALOG IS BEING DELIVERED AS IS AND OMIX-ADA, INC. OR LICENSEE MAKE NO WARRANTIES, EXPRESSED OR IMPLIED, ON MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. OMIX-ADA, INC. OR LICENSEE DISCLAIM ALL LIABILITY FOR DIRECT OR INDIRECT DAMAGES ARISING FROM THE USE OR PERFORMANCE OF THIS CATALOG OR THE PRODUCTS HEREIN. DEFECTIVE ITEMS WILL BE CREDITED OR REPLACED AT OMIX'S SOLE DISCRETION. OMIX IS NOT RESPONSIBLE FOR LABOR, CONSEQUENTIAL DAMAGES OR BODILY INJURIES ARISING FROM INSTALLING OR USING ITS PARTS, CATALOG OR LISTINGS. NO RETURNS ARE ALLOWED ON SPECIAL ORDERS, FACTORY DROPSHIPS, ELECTRICAL AND BODY PARTS. OMIX-ADA OR LICENSEE ARE NOT RESPONSIBLE FOR TECHNICAL ERRORS, OMISSIONS OR PRINTING ERRORS. PRICES, AVAILABILITY AND BRAND NAMES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

JEEP®, WILLYS®, AMC™, WRANGLER™, CHEROKEE™, GRAND CHEROKEE™, LIBERTY™, CJ™, YJ™, XJ™, TJ™, JK™, ZJ™, WJ™, SJ™, KJ™, JEEP® GRILLE DESIGN AND OTHER NAMES USED IN THIS CATALOG ARE REGISTERED TRADEMARKS OF CHRYSLER LLC. OMIX-ADA OR ITS LICENSEES ARE NOT AFFILIATED WITH CHRYSLER LLC. ALL PARTS LISTED ARE AFTERMARKET REPLACEMENT PARTS. PART NUMBERS, ILLUSTRATIONS AND IMAGES USED FOR REFERENCE PURPOSE ONLY. NO IMPLICATION IS MADE THAT THESE ARE ORIGINAL EQUIPMENT PARTS, FROM THOSE SOURCES WHOSE PART NUMBERS ARE USED HERE FOR REFERENCE OR THAT THEY ARE APPROVED BY THOSE COMPANIES.

© OMIX-ADA, INC. 2010. ALL RIGHTS RESERVED.

WARNING

Your safety and the safety of other motorists is very important. Your Jeep® is an off road capable vehicle that readily lends itself to restoration and customization. As the owner of a modified suspension vehicle you are the person choosing the combination of suspension, wheels, tires, drive train and accessories that best fit your intended use. Likewise, you are the person responsible for the safety and legality of the vehicle you modify. In modifying your vehicle's suspension, balance your off-road capabilities against how the vehicle may actually be used off-road and on-road.

It is not practical or possible to warn about all hazards associated with your Jeep® restoration or modifying your suspension for improved off road capabilities. Start by familiarizing yourself with all vehicle manufacturers' instructions and warnings and the instructions and warnings accompanying your aftermarket product. Follow recommended maintenance procedures and routinely inspect your vehicle components for unusual wear or off-road damage. Restoration parts are direct replacements of original components and are not designed or warranted as meeting current safety standards (including FMVSS).

Always wear seat belts and/or appropriate off-road restraints, reduce your speed, tread lightly™ and safely enjoy your off-road vehicle.

Body

- » Replace Steel Body Tubs and Body Kits from 1941 – 1986
- » Replacement Body Panels from 1941 – 2010
- » Jeep®/Willys Licensed Body Tubs, Kits & Panels Available!
- » Body Tubs are completely assembled, and primed. Ready to be shipped to your door.
- » 16 gauge steel used on body tubs for all side and tail panels. In most cases it is thicker than original!
- » 18 Gauge steel used on body tubs in the front and rear flooring, all mounting brackets, top cowl assembly, and wheel housings.
- » Manufactured using a seven-step metal preparation process, including:
 - A 5 bath dip to totally eliminate rust, dirt and grease.
 - A phosphate and acid rinse step to ensure corrosion resistance and proper adhesion of the primer.
 - New primer formula and application method that is designed for a smooth and even finish.
- » Includes all major factory mounting locations, including channels for body mounting.
- » Dashes and shifter tunnels left blank in some applications with varied OE locations.

REBUILT ENTIRELY FROM PARTS LISTED IN THE CATALOG!

Our body panels are more than just parts; they are built with a legacy and heritage in mind. No other supplier can match Omix's passion and dedication to quality. This is why we have been authorized to use the "MOPAR Authentic Restoration" and "MOPAR Official Licensed Product" logos for the more than 30 licensed body tubs and panels we produce. We take pride in being one of the few manufacturers strong enough to stand behind the legendary Jeep® name.

Our Body Tub is a completely assembled body shell from the firewall to the tail light panel. Fitted, welded and assembled together with the cowl panel, rear wheel housings, dash panel, and glove box already in place. Or you can upgrade to a Body Tub Kit. It features the same great body tub, (2) front fenders, windshield frame, hood and tailgate. It is the ultimate restoration accessory, primed and shipped to your door.

No more grinding, welding, or cutting out rusty panels, just to struggle as you fight to line up the new part. All the hard work is done for you. Primed and nearly ready for paint. The hardest part will be picking out the new paint color. How quickly can you say Olive Drab?

Of course the body tubs are not completely finished, there will still be some fitting and working to make everything line up. Just the same; as if you were working with a 50 year old body tub. –But our tubs are as you close as you can get today to a body off the original Toledo assembly line. Why else would MOPAR authorize us to use the "Willys" and "Jeep" scripts on the officially licensed bodies and panels we produce?

1 JEEP BODY KITS

DESCRIPTION

WILLYS MB 41-42 (3/1/42). BODY WITH FENDERS, HOOD, WINDSHIELD & TAILGATE

1997-06 WRANGLER, 7" FLARE KIT: 6 PIECES: (2) FRONT RH & LH & (2) REAR RH & LH, (2) EXTENSION RH & LH, WITHOUT HARDWARE	11608.11
1997-06 WRANGLER, 7" FLARE FRONT RH	11608.02
1997-06 WRANGLER, 7" FLARE FRONT LH	11608.03
1997-06 WRANGLER, 7" FLARE REAR RH	11608.04
1997-06 WRANGLER, 7" FLARE REAR LH	11608.05

* Rugged Ridge's 7" CJ & YJ Fender Flares use a TJ Style Rear Flare enabling it to cover a larger wheel space. This feature also makes it necessary to cut the rear wheel housings to accept a larger size tire. Cutting & drilling required on 1976-95 models. Not designed for Sahara models. Rubicon models do not require side extensions.

1 1955-86 CJ-5 & CJ-7

DESCRIPTION	PART No.

1 Rugged Ridge 7" FENDER FLARES & KITS

Improve your vehicles aggressive, rugged looks with Rugged Ridge's 7" Fender Flares. Not just for looks - these durable thermoplastic flares also provide added protection from road debris and stone chips

DESCRIPTION	PART No.
7" FLARE, 1987-95 WRANGLER KIT: 6 PIECES WITH HARDWARE	11607.01
7" FLARE, 1997-06 WRANGLER KIT: 6 PIECES	11608.01
Fender Flare Kit w/ Hardware, 1997-2006 Wrangler/Unlimited	11630.10
Fender Flare Kit w/ Hardware, 1987-95 Wrangler*	11632.10
Fender Flare Kit w/ Hardw., 76-83 CJ5, 76-86 CJ7, 81-86 CJ8*	11633.10

Rugged Ridge 7" 1987-95 (YJ) Wrangler Fender Flares use a 1997-06 Wrangler Style Rear Flare enabling it to cover a larger wheel space (as may be required by law). This feature also makes it necessary to cut the wheel housings to accept a larger size tire. Cutting & Drilling Required.

2 STAINLESS STEEL FASTENER KITS

These body hardware kits from Totally Stainless include stainless steel bolts, screws, washers, and nuts for your specific vehicle. Each grouping of fasteners is individually bagged and labeled.

DESCRIPTION	PART No.
1987-95 WRANGLER WITH HARDTOP, 754 PIECES	12215.11
1987-95 WRANGLER WITH SOFT TOP, 703 PIECES	12215.12

Axle & Differential

HEAVY DUTY DIFFERENTIAL COVERS
 You won't break these covers, we guarantee it, if you do, we'll replace them. Made of 3/8 inch cast steel, painted black inside and out, these heavy duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. these covers even have reinforced protection for the fill plug. All mounting hardware and instructions are included.

1987-01 CHEROKEE, 1993-04 GRAND

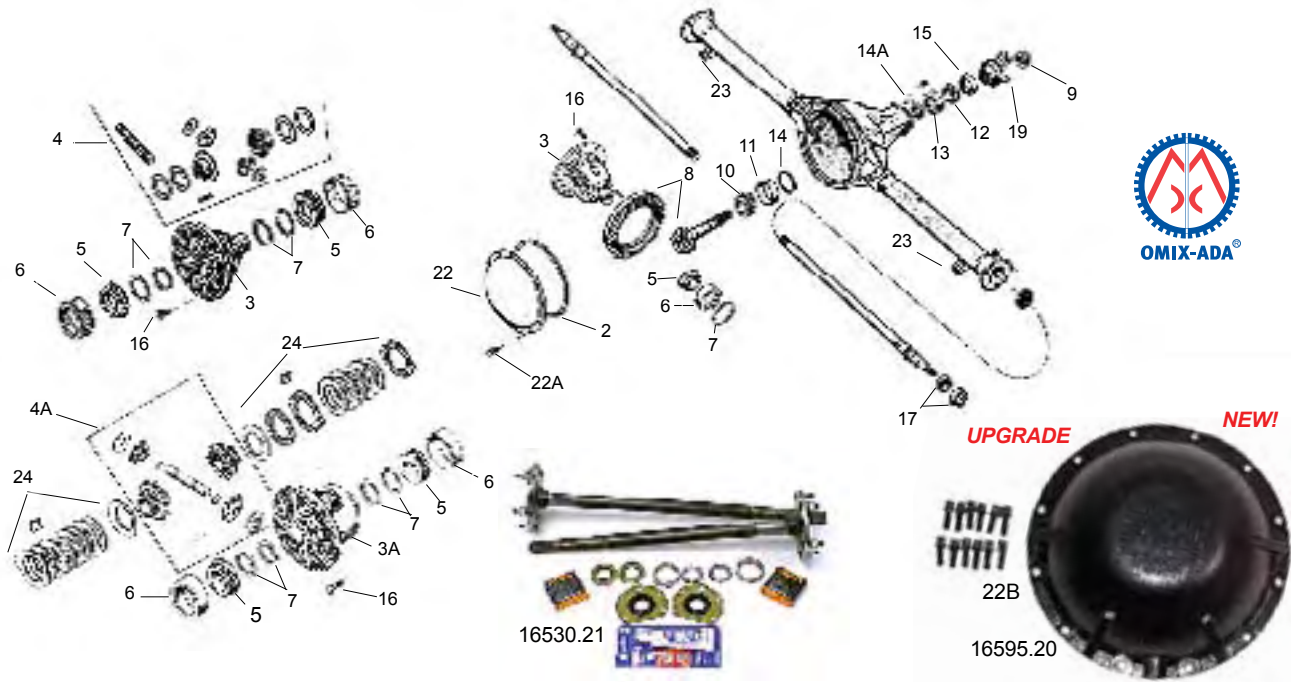

HEAVY DUTY DIFFERENTIAL COVERS
You won't break these covers, we guarantee it, if you do, we'll replace them. Made of 3/8" cast steel, painted black inside and out, these heavy duty covers are designed to protect your differential and all its working parts for as long as you own your vehicle. These covers even have reinforced protection for the fill plug. Mounting hardware & instructions included.

43 CASE HYDRA-LOC DIFFERENTIAL	----	16505.39*

*with 3/8" ring gear bolts**with 7/16" ring gear bolts

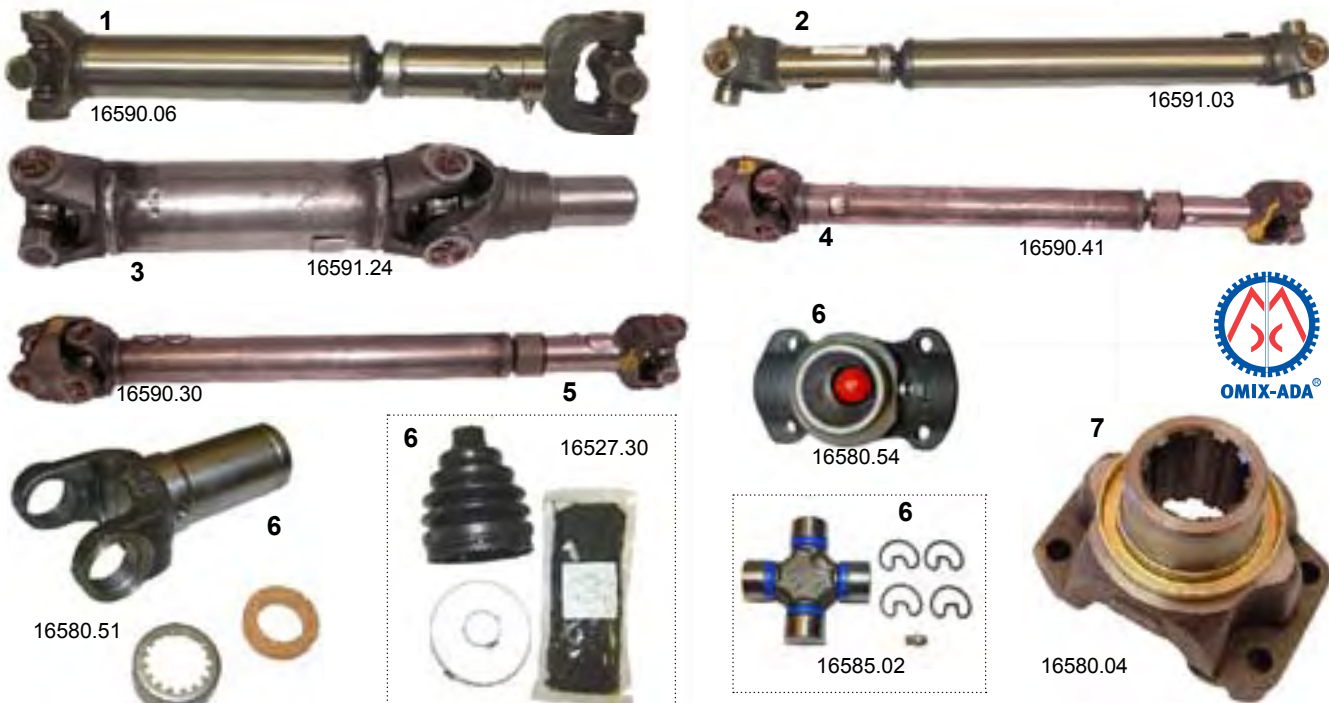

UPGRADE
NEW!

16597.44
13B

Protect your factory differential cover with this heavy duty skid plate. Designed to fit the contours of your stock differential cover. Constructed of durable 3/16" black powder coated steel.

NOTE: 1999-3/29/2000 Grand Cherokees use 3/8" ring gear bolts, 3/29/2000-2004 Grand Cherokees use 7/16" ring gear bolts

SLIP YOKE ELIMINATOR KIT FOR NP231

This kit is a MUST if you installed a 2" or taller suspension lift (not needed for body lift). The kit fits all newer production NP 231 transfer cases (1987-up). This kit will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift kits. The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed-yoke, CV style drive shaft assembly. This is the most complete and strongest kit available. Check out the size and thickness of the output shaft housing.

MEGA SHORT SLIP YOKE ELIMINATOR KIT FOR NP231

NEW!

18676.72

For really tall lift systems and extreme off road capable vehicles, the **Rugged Ridge** Mega Short SYE kit for the NP231 transfer case is the choice for you. Designed to give you a 7" increase in rear drive shaft length (3 more inches than our regular SYE kit), this kit will support 6 inch and taller suspension lift systems. No dropped transfer case means better clearance. Longer drive shaft means no vibrations or binding, and increased travel for tall lifts.

Made of 356-T6 aluminum, and nodular reinforced for superior strength, the Mega Short SYE housing is the strongest available anywhere. In addition, the tone ring has 8 holes machined in it to allow maximum oiling to the main bearing. To top that off, a large 209 Series roller bearing supports the main output shaft for long life and reliability. You can count on this kit.

In conjunction with a CV Driveshaft, the Mega Short Slip Yoke Eliminator Kit will strengthen your drive train by eliminating the weak link – a stock slip yoke. The kit comes complete with all hardware, instructions and sensor to make this a bolt on kit.

NOTE: Will not work with cable driven speedometers.

16592.05

! WARNING

OEM slip yokes on 1987-2006 Jeep® Wrangler are not suitable for use with 2" or taller Rugged Ridge™ or other vendors' suspension lifts. Failure of slip yoke may result in damage to transfer case and/or loss of vehicle control. Use of this slip yoke eliminator kit is required for all suspension lifts 2' or taller. See additional product safety information and WARNINGS at front of catalog.

CV REAR DRIVESHAFT FOR 1987-10 WRANGLER

*THESE DRIVESHAFTS ARE A MUST WHEN USING SLIP YOKE ELIMINATOR KITS ON NEW PROCESS 231

DESCRIPTION	PART #

1 SPEEDOMETER ASSEMBLIES (in miles)

DESCRIPTION	PART #
1942-43 MB WITH TRIPOMETER, w/ LONG NEEDLE	17206.02
1944-45 MB WITH TRIPOMETER, w/ SHORT NEEDLE	17206.03
1946-49 CJ2A	17206.01
1948-53 CJ3A	17206.01
1953-58 CJ3B (early style)	17206.01
1955-79 CJ3B (late style 0-90 mile dial)	17206.04
1955-79 CJ5 (0-90 mile dial)	17206.04
1955-75 CJ6 (0-90 mile dial)	17206.04
1980-83 CJ5 (5-85 mile dial)	17206.05
1980-86 CJ7 (5-85 mile dial)	17206.05
1980-86 CJ8 (5-85 mile dial)	17206.05

2 SPEEDOMETER ASSEMBLIES. (in kilometers)

DESCRIPTION	PART #
1959-65 CJ3B (late style)	17205.02
1955-79 CJ5	17205.02
1980-83 CJ5	17205.03
1955-75 CJ6	17205.02
1980-86 CJ7	17205.03
1980-86 CJ8	17205.03

3 SPEEDOMETER HEADS WITH ODOMETER (without case or other parts)

DESCRIPTION	PART #
1955-65 CJ3B (late style 0-90 mile dial)	17207.01
1955-65 CJ3B (late style kilometer dial for export markets)	17207.02
1955-79 CJ5 (0-90 mile dial)	17207.01
1955-79 CJ5 (kilometer dial for export markets)	17207.02
1980-83 CJ5 (5-85 mile dial)	17207.03
1980-83 CJ5 (kilometer dial for export markets)	17207.04
1955-75 CJ6 (0-90 mile dial)	17207.01
1955-75 CJ6 (kilometer dial for export markets)	17207.02
1980-86 CJ7 (5-85 mile dial)	17207.03
1980-86 CJ7 (kilometer dial for export markets)	17207.04
1980-86 CJ8 (5-85 mile dial)	17207.03
1980-86 CJ8 (kilometer dial for export markets)	17207.04

4 FUEL & TEMP GAUGES INSIDE SPEEDOMETER ASSY

DESCRIPTION	Stock No.
1980-86 CJ REPLACEMENT BI-TORQUE DESIGN FUEL & TEMP GAUGE PAIR (gauge pair must be used together)	17209.02

5 SPEEDOMETER GEARS

DESCRIPTION	PART #
1941-45 MB SPEEDOMETER ROUND GEAR (inside transfer case)	17211.01

6 SPEEDOMETER CABLES

DESCRIPTION	PART #
1941-45 MB 3 SPEED, 60"	17208.01
1945-49 CJ2A 3 SPEED, 60"	17208.01
1948-53 CJ3A 3 SPEED, 60"	17208.01
1953-65 CJ3B 3 SPEED, 60"	17208.01

NEW AND IMPROVED!

1

17239.01

For restoration purposes this distributor has been crafted to look like the original, but on the inside it's a whole new story. The troublesome points have been replaced with a state of the art electromagnetic pickup and a built-in electronic control module. With the hookup of the two simple wires (installation instructions included), this distributor will improve the performance and driveability of any 12-volt 134-engine. No more fooling around in trying to get the points adjusted to the correct setting. Just drop in, plug in and go. (Will not work with 6-volt models and is not original for M38 or M38A1). For replacement parts specifically for this distributor, order module #17252.05, cap #17244.02, and rotor 17246.02.

RUGGED RIDGE EXHAUST HEADERS

The new **Exhaust Headers** for 1991-06 4.0L motors are sure to increase performance and horsepower. These headers are a great upgrade to any stock 4.0L engine. The complete bolt on kit includes manifold, gasket, hardware and down pipe flange gasket (where necessary). Available in Standard Steel with a 700-degree high temp black coating, 409 or 304 grade Stainless Steel for long lasting durability, rust resistance and performance life.

PERFORMANCE CARBURETOR KIT

17702.06

New & improved with twin 34mm bores delivering 300cfm
Improved throttle response
Delivers more horsepower & torque
Eliminates the dead spot off idle at acceleration
Complete kit with all necessary hardware for easy installation
Includes new throttle cable bracket
Time tested electric choke assures quick starts every time

EMPI CARBURETOR ASSEMBLY

17702.08

Hardware Included

New & improved with 32/36mm bores delivering 300cfm
Improved throttle response
Delivers more horsepower & torque
Complete kit with all necessary hardware for easy installation
Includes new fuel pressure regulator

1 INTAKE MANIFOLDS

1970-79 SJ TRUCK	17724.21

6 FUEL TANK SENDING UNIT KITS

DESCRIPTION	PART #
1970-86 CJ (sending unit, filter, O-ring & lock-ring)	17724.09
1982-86 CJ, STEWART WARNER SENDING UNIT KIT FOR FACTORY 20 GAL TANK	17724.15

7 FUEL TANK SENDING UNIT GASKET

DESCRIPTION	PART #
1946-49 CJ2A	17725.01
1948-53 CJ3A	17725.01
1953-58 EARLY CJ3B	17725.01
1955-66 4 CYLINDER (between tank & sending unit)	17725.02
1970-86 CJ (both 15 gal & factory 20 gal tanks)	17730.01
1987-93 WRANGLER	17730.02

8 MISC. FUEL TANK COMPONENTS

DESCRIPTION	PART #
1970-79 SJ WAGONEER FUEL PICK UP	17724.22
1970-86 CJ LOCK RING, 15 GAL FUEL TANK	17727.01
1982-86 CJ WITH FACTORY 20 GAL TANK LOCK NUT	17727.02
1987-90 WRANGLER LOCK RING	17727.03
PLASTIC FLOAT (will fit all our CJ sending units)	17729.01
MB, GPW, CJ2A, CJ3A, CJ3B, M38, CJ5 41-69 GAS TANK FELT KIT (NEW)	12021.87

1 FUEL FILLER HOSES

DESCRIPTION	PART #
1970-75 CJ	17740.01
1976 CJ	17740.02
1978-86 CJ5, CJ7 (factory 15 gal tank)	17740.03
1982-86 CJ5 W/ FACTORY 20 GAL, 1-1/4" DIAMETER	17740.04
1982-86 CJ7 W/ FACTORY 20 GAL, 1-1/4" DIAMETER	17740.04
1982-86 CJ8 W/ FACTORY 15 GAL, 1" DIAMETER	17740.05
1987-90 WRANGLER, 1" DIAMETER	17740.06
1991-95 WRANGLER WITH 20 GAL TANK	17740.07
1997-02 WRANGLER	17740.08

2 FUEL TANK VENT HOSES

DESCRIPTION	PART #
1978-86 CJ5 (factory 15 gallon tank)	17741.01
1982-86 CJ5 WITH FACTORY 20 GAL TANK, 1" DIA	17741.02
1978-86 CJ7 (factory 15 gal tank)	17741.01
1982-86 CJ7 WITH FACTORY 20 GAL TANK, 1" DIA.	17741.02
1982-86 CJ8 WITH FACTORY 15 GAL	17741.03
1987-90 WRANGLER, 11/16" DIAMETER	17741.04
1991-95 WRANGLER WITH 20 GALLON TANK	17741.05
1997-02 WRANGLER	17741.06

3 FUEL FILLER NECKS

DESCRIPTION	PART #
1977-86 CJ5	17743.01
1977-86 CJ7	17743.01
1981 CJ8	17743.01
1991-95 WRANGLER, FITS 15 & 20 GALLON MODELS	17743.03
1997-02 WRANGLER (PLASTIC)	17742.02

4 FUEL TANK FILLER NECK GROMMETS

DESCRIPTION	PART #
1945-71 CJ	12025.23
1953-71 M38 & M38A1	12023.11

5 FUEL TANK FILLER NECK PROTECTORS

DESCRIPTION	PART #

18027.01

UPGRADE

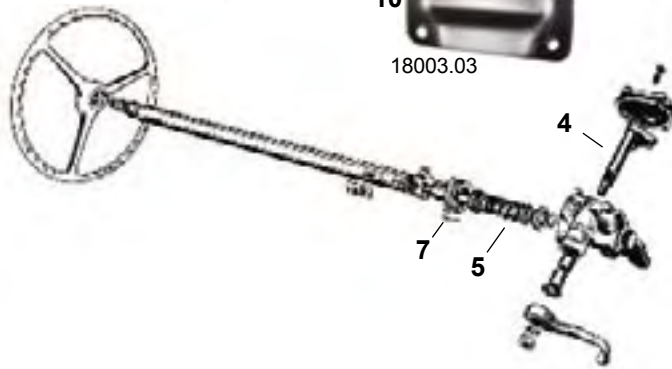

18021.02

18003.02

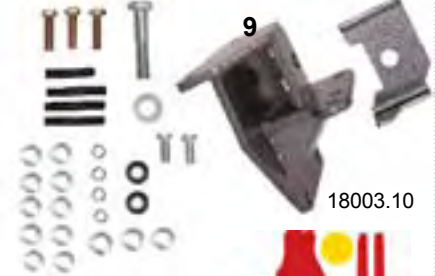

18003.03

This overkill mount eliminates the two piece OE version that is prone to fatigue and cracking over time. With this mount, we have integrated a clamshell frame plate to eliminate any possible weak point in the steering box mounting system. Kit is complete with all hardware and instructions. This is the last steering box mount you'll ever need to buy.

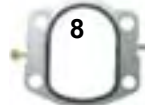

UPGRADE

18003.10

18029.01

18005.03

18028.01

SLIP YOKE ELIMINATOR KIT FOR NP231

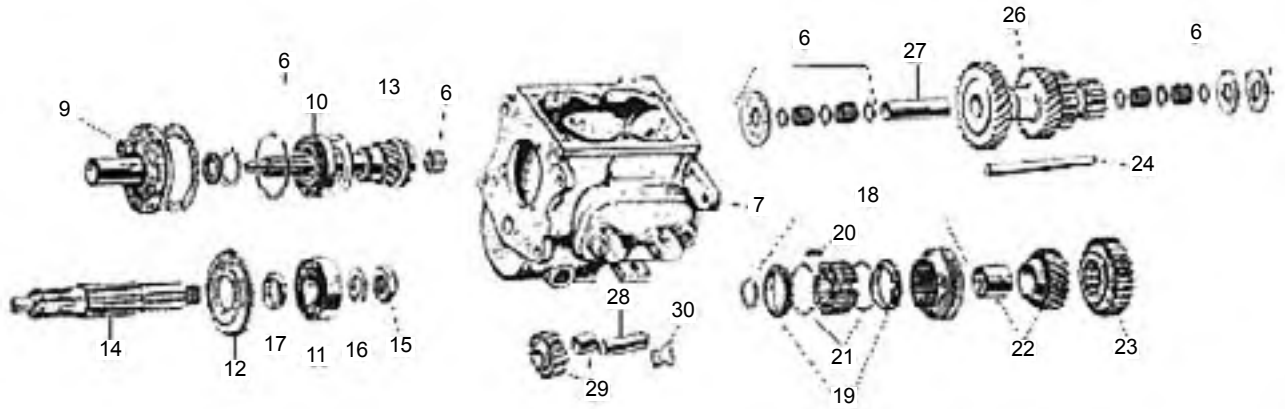

This kit is a MUST if you installed a 2" or taller suspension lift (not needed for body lift). The kit fits all newer production NP 231 transfer cases (1987-06). This kit will eliminate the need to drop your transfer case in order to avoid drive train vibrations that are caused by taller suspension lift kits.

The purpose of this kit is to replace the slip yoke portion of the NP 231 with a fixed-yoke, CV style drive shaft assembly. This is the most complete and strongest kit available. Check out the size and thickness of the output shaft housing. NOTE: A CV equipped drive shaft will be required for this conversion kit.

FOR USE WITH MODELS WITH 1ST GEAR		33 STABILIZER STUD, TRANSMISSION MOUNTING	18608.05
11 OIL SEAL, REAR OUTPUT SHAFT	18885.08	34 STABILIZER BUSHING (2 needed)	18608.06
12 SYNCHRONIZER ASSY, 3rd & 4th	18885.09	34 POLYURETHANE STABILIZER BUSHING PAIR, RED	18608.07
13 BLOCKING RING, 3-4 SYNCHRONIZER (2 needed)	18885.10	34 POLYURETHANE STABILIZER BUSHING PAIR, BLACK	18608.08
14 3RD SPEED GEAR: 27 TOOTH COUNT	18885.11	35 TRANSMISSION MOUNTED SHIFT BOOT	18885.30
16 BLOCKING RING, 1st & 2nd SYNCHRONIZER (2 needed)	18885.14	36 SHIFTER LEVER KIT WITH CLIP & INSULATOR, FOR 1982-86 CJ W/ T4 OR T5 TRANSMISSION	18885.31
		SHIFTER HANDLE CLIP, FOR 1982-86 CJ W/ T4 OR T5 TRANSMISSION	18885.32
		SHIFTER HANDLE INSULATOR, FOR T4 OR T5 TRANSMISSION	18885.33
		SHIFTER LEVER, FOR 1982-86 CJ W/ T4 OR T5 TRANSMISSION	18885.34

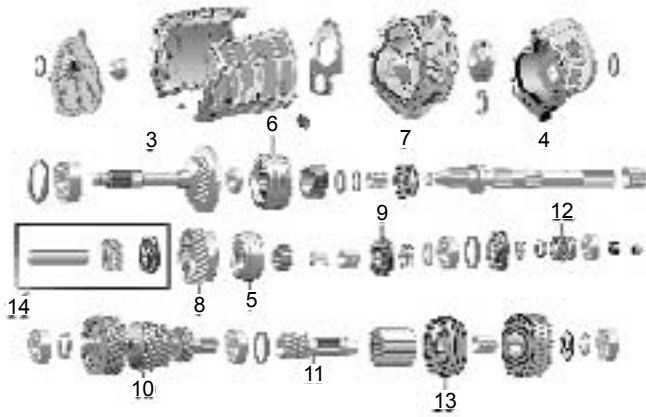

WARNER T5 5 SPEED 1982-86 CJ

DESCRIPTION	PART #	DESCRIPTION	PART #
2 OVERHAUL REPAIR KIT INCLUDES FRONT & REAR BEARINGS, GASKETS & SEALS KIT, SMALL PARTS KITS (items 3, 4, 5, 6, 8, 11, 19 & 20)	18806.07	23 BLOCKING RING FOR 5th SYNCHRONIZER	18885.23
3 TUBE OF SILICONE (to be used as gasket)	19201.01	26 GEAR, REVERSE IDLER WITH BUSHING	18885.26
4 SMALL PARTS KIT	18805.07	27 BELLHOUSING (1980-86 CJ), 6 CYL OR 8 CYL	16916.02
5 BEARING & CUP, TRANS FRONT (for input shaft)	16536.15	28 SHIFTER BOOT	18806.03
6 BEARING & CUP, TRANS REAR (for main shaft)	18885.01	29 SHIFT KNOB (without shift pattern plate)	18607.03
7 RETAINER, FRONT INPUT SHAFT	18885.02	30 SHIFT PATTERN (for above shift knob)	18885.28
8 OIL SEAL, MAIN DRIVE RETAINER	18885.03	31 SHIFT KNOB LOCK NUT	18607.05
9 INPUT SHAFT (4th gear)		32 TRANSMISSION MOUNT	18608.02
21 TOOTH WITH 10 SPLINE CLUTCH DISC	18885.04	32 POLYURETHANE TRANSMISSION MOUNT, RED	18608.03
10 MAIN SHAFT (includes 1st & 2nd gear synchronizer)		32 POLYURETHANE TRANSMISSION MOUNT, BLACK	18608.04
USE ON MODEL W/O 1st GEAR NEEDLE BEARING	18885.06	33 STABILIZER STUD, TRANSMISSION MOUNT	18608.05
11 OIL SEAL, REAR OUTPUT SHAFT	18885.08	34 STABILIZER BUSHING (2 needed)	18608.06
12 SYNCHRONIZER ASSEMBLY, 3rd & 4th	18885.09	34 POLYURETHANE STABILIZER BUSHING PAIR, RED	18608.07
13 BLOCKING RING, 3-4 SYNCHRONIZER (2 needed)	18885.10	34 POLYURETHANE STABILIZER BUSHING PAIR, BLACK	18608.08
14 3rd SPEED GEAR: 27 TOOTH COUNT	18885.11	35 1982-86 CJ TRANS. MOUNTED SHIFTER BOOT	18885.30
16 BLOCKING RING, 1st & 2nd (2 needed)	18885.14	36 SHIFTER LEVER KIT WITH CLIP & INSULATOR, FOR 1982-86 CJ WITH T4 OR T5 TRANSMISSION	18885.31
18 CLUSTER GEAR KIT (includes 27 tooth 3rd gear)	18885.17	SHIFTER HANDLE CLIP, FOR 1982-86 CJ WITH T4 OR T5 TRANSMISSION	18885.32
19 FRONT CLUSTER GEAR BEARING	18885.19	SHIFTER HANDLE INSULATOR, FOR T4 OR T5 TRANSMISSION	18885.33
20 REAR CLUSTER GEAR BEARING	16536.22	SHIFTER LEVER, 1982-86 CJ W/ T4 OR T5 TRANS.	18885.34

PEUGEOT BA 10/5 & AUTOMATIC TRANS. PARTS

PEUGEOT BA 10/5 5 SPEED 1987-89 WRANGLER & CHEROKEE

DESCRIPTION	PART #
1 BEARING & OIL SEAL KIT (includes all 7 bearings & 3 oil seals)	18801.11
2 TUBE OF SILICONE (to be used as gasket)	19201.01
3 INPUT SHAFT	18888.01
3 INPUT SHAFT	18888.02
4 MAIN SHAFT	18888.03
5 SYNCHRONIZER ASSY, 1st & 2nd	18888.04
6 SYNCHRONIZER ASSY, 3rd & 4th	18888.05
7 3rd SPEED GEAR	18888.06
8 2nd SPEED GEAR	18888.07
9 1st GEAR 12-32 TOOTH COUNT	18888.08
9 1st GEAR	18888.09
10 CLUSTER GEAR	18888.10
10 CLUSTER GEAR	18888.11
11 5th GEAR, INTERMEDIATE	18888.12
13 5th GEAR SYNCHRONIZER	18888.14
14 REVERSE GEAR KIT (as shown in block)	18888.15
15 TRANSMISSION MOUNT (Wrangler only)	18608.09
16 STABILIZER STUD, TRANSMISSION MOUNT	18608.05
17 STABILIZER BUSHING (2 needed)	18608.06
17 POLYURETHANE STABILIZER BUSHING PAIR, RED	18608.07
17 POLYURETHANE STABILIZER BUSHING PAIR, BLACK	18608.08

AUTOMATIC TRANSMISSION REBUILD KITS:

THESE SUPER KITS INCLUDE: Overhaul gasket & seal kit, all friction plates, all steel clutch plates, Flex Band (if required), filter & bushings and all friction and steel clutch plates

DESCRIPTION	PART #
1987-03 4 OR 6 CYL, WRANGLERS, TF6	19001.04
1987-01 4 OR 6 CYL, CHEROKEE, AW4 TYPE	19001.03
1993-98 6 CYL GRAND CHEROKEE, A-500 TYPE	19001.01
1999-04 6 CYL GRAND CHEROKEE, A-500 TYPE	19001.01
1993-98 V8, GRAND CHEROKEE, A-518 TYPE	19001.02
1987-93 MJ COMMANCHE, AW4 TYPE	19001.03

NOTE: # 19001.05 - IS NOT A SUPER KIT- IT CONTAINS: overhaul gasket & seal kit, all friction & steel clutch plates

DESCRIPTION	PART #
1999-04 4.7L V8 GRAND CHEROKEE,	19001.05
2002-04 4 OR 6 CYL LIBERTY, 45RFE TYPE	19001.05

CHEROKEE - CJ - WRANGLER

The legend of the "Jeep" in a crate has been around for years. Nobody has been able to prove this legend until now. Hundreds of surplus crates containing CJ - Cherokee - and even Wrangler parts from all over the globe, have been sourced and brought to our warehouse. Each crate contains just one piece to a puzzle of a thousand parts that make up any number of Jeep® systems or even complete vehicles.

JEOP CHEROKEE (RHD)

We have thousands of OE high quality factory fresh replacement parts for your 1984-96 Jeep® Cherokee. These crates were packed at the Toledo factory in 1996 for the export of 288 Cherokees to be assembled in an overseas market. All items were packed in bulk and have been sealed in their crates for the past ten years. All parts look like the day they came off the assembly line here in the U.S. and Canada. All of the surplus parts were either manufactured here in the States or in Canada and are of true OE quality. Looking for that replacement axle assembly? We have it. Looking for that small bolt or fastener that's just not stocked anymore? We have it. If it was made for the first generation Cherokees, then odds are we have what you are looking for.

CJ & WRANGLER SURPLUS

As with the Cherokee stock we have acquired a large number of crates containing many CJ and Wrangler components. The crates are being opened and new stock is being readied for sale daily. Items range from transmissions to mirrors and many more items you will find listed in the following pages of this catalog.

For complete listing, please visit our website.

SURPLUS

Please keep in mind that even though there is a large supply of these surplus parts, quantities are limited. When the part you need sells out, it's gone for good. For this reason, we are selling on a first come, first serve basis.

Surplus

SURPLUS

CHRYSLER-JEEP® TRANSMISSIONS

The following transmissions were originally supplied for 1996 export Cherokee vehicles, but can be used for any Jeep® application where they were installed by the factory.

S-52108046

AX5 Manual Transmission

Used with Cherokee 2.5L 4 cylinder engine.

- Jeep® models that used the AX5 manual transmission
- 1994-96 Cherokee with 2.5L 4 cylinder engine
- 1984-93 Cherokee with 2.5L 4 cylinder engine (may require modifications)
- 1987-98 Wrangler with 2.5L 4 cylinder engine (may require modifications)

S-4810179

AW4 Automatic Transmission used with 4.0L High Output engines, and has a 23 spline output shaft. Gear ratios were 2.80, 1.53, 1.00, and .75

- Jeep® models that used the AW4 automatic transmission
- 1991-96 Cherokee (XJ), Comanche pick-ups (MJ) 6 cylinder
- 1993 Grand Cherokee (ZJ) 6 cylinder

S-52119156

32RH Automatic Transmission

with 23-spline output used with 4.0L 6 cylinder engines.

This automatic transmission was originally supplied for 1994-96 export Wrangler with 4.0L 6 cylinder engines, but can be used for any Jeep® application where part number 52118024 was installed by the factory.

- Jeep® models that used the 32RH automatic transmission
- Jeep® part number S-52118024
- 1992-95 Wranglers with 4.0L 6 cylinder engine
- 1996 Export Wrangler with 4.0L 6 cylinder engine

CHRYSLER-JEEP® TRANSFER CASES

The following transfer cases were originally supplied for 1996 export Cherokee vehicles, but can be used for any Jeep® application where they were installed by the factory.

S-52099310

NP231 (S-52099310) Chain drive transfer case

For 2.5L 4 cylinder with manual transmissions.

Has a 21-spline input, and a 1.2" short shaft.

- Jeep® models that used the NP231 21-spline transfer case.
- Any 4 cylinder Jeep with an AX4, or AX5 manual transmission
- Any 4 cylinder Jeep with an AW4 up to 1990 with 21-spline output.

S-52098384

NP242 (S-52098384) Chain drive full time transfer case (Export Only)

For 4.0L 6 cylinder engines, 23-spline input.

- Jeep® models that used the NP242 23-spline full time transfer case.
- 1991-01 Jeep Cherokee with 4.0L 6 cylinder engine and A/T
- Uses 2 wire transfer indicator switch
- 2WD-4PT-4FT-N-4L Shift Pattern

The following transfer cases were originally supplied for 1994-96 export Wranglers with 4.0L 6 cylinder engines, but can be used for any Jeep® application where the listed part numbers were installed by the factory.

S-52098360

S-52098358

NP231 (S-52098358) Chain drive transfer case

For 4.0L 6 cylinder with manual transmissions, 23-spline input, (1.2" short shaft).

- Jeep® models that used the NP231 23-spline transfer case with manual transmission and some automatics
- Any 6 cylinder Jeep® equipped with a 1989-94 AX15
- Any 6 cylinder Jeep® equipped with an AW4 after 1990, 23-spline output

NP231 (S-52098360) Chain drive transfer case

For 4.0L 6 cylinder with automatic transmissions, 23-spline input, (2.1" long shaft).

- Jeep® models that used the NP231 23-spline transfer case with automatic transmission and some manual transmission
- Any 6 cylinder Jeep® equipped with a 1996-01 AX15
- Any 6 cylinder Jeep® equipped with a 31RH or 32RH automatic

CHRYSLER-JEEP® FRONT AND REAR AXLE ASSEMBLIES (Surplus Limited Supply)

The following axle assemblies were originally supplied for 1996 export right hand drive Cherokee vehicles, but can be used for any Jeep® application where they were installed by the factory.

S-52069795 Dana 35 rear axle assembly with 3.54 gears

- Jeep® models that can use the Dana 35 axle.
- 1984-01 Jeep Cherokee
 - Comanche pick-up
 - Any Wrangler or Grand Cherokee with rear leaf spring design (some modifications required).

Axles come with leaf spring mounting perches

S-52069381 Chrysler 8.25 rear axle assembly w/ 4.10 gears w/ Track-Lok

- Jeep® models that can use the 8.25 rear axle.
- 1984-01 Jeep Cherokee
 - Comanche pick-up
 - Any Wrangler or Grand Cherokee with rear leaf spring design.

Axles come with leaf spring mounting perches

The front axle assembly was exported as a RHD unit but can be used domestically w/ modifications.

RHD = right hand drive vehicle.

S-52069201 High Pinion Dana 30 front assembly with 4.10 gears.

RIGHT HAND DRIVE (RHD)

S-52069200 High Pinion Dana 30 front assembly with 3.54 gears.

RIGHT HAND DRIVE (RHD)

Jeep® models that had a coil spring Dana 30 front axle. 1994-01 (RHD) Jeep Cherokee (XJ)

Note: these front axle assemblies can be modified to work w/ other front applications (LHD) but will require some cutting and rewelding.

1997-05 4.0L Crankshaft Position Sensor	S-56027867

7 FUEL & INTAKE SYSTEM PARTS

DESCRIPTION	PART #
1996 Fuel tank without sending unit	S-56022095
1994-96 Fuel pump with regulator & sending unit (in tank)	S-4798941
1984-96 Fuel tank skid plate	S-52001512
1996 Filter box air hose assembly	S-53006274
1997-00 Vapor return canister	S-53031904

8 STEERING PARTS

DESCRIPTION	PART #
1995-96 Steering assembly (intermediate)	S-52078556
1991-01 CHEROKEE RHD Pitman arm (power steering)	S-52006505
1991-01 CHEROKEE RHD Steering stabilizer shock	S-52037506
1996 Steering column assembly - tilt	S-52080229
1997-01 Power steering box - RHD only	S-56022278AA
1995-96 AirBag (steering wheel, black) ***	
***EXPORT ONLY, CAN NOT BE SOLD DOMESTICALLY	S-5FL22SX8
1984-96 Steering linkage assembly - RHD	S-52006507
1996 Steering wheel without air bag	S-5FJ14SX9

4 BRAKE PARTS

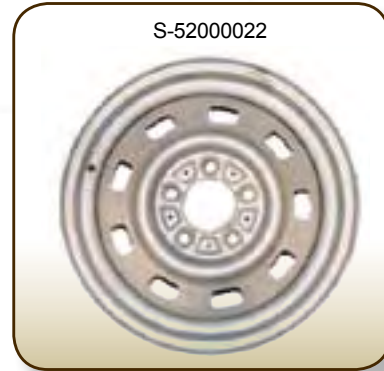

DESCRIPTION	PART #
1996 Power brake booster with master cylinder	S-52008647
1996 Hydraulic ABS control unit	S-52008727
1996-99 Proportioning valve assembly	S-52129025
1996 E-brake lever assembly (2.5L - manual)	S-52127958

JEEP® CJ & WRANGLER SURPLUS STOCK (Limited Supply)

Spotlight Surplus item

OE steel wheel for 1987 to 2006 Jeep vehicles with 5 x 4.5 wheel bolt pattern. These are factory supplied steel wheels that can be used as your second set of street wheels, or for your set of winter tires. Need to save space and weight? Then this is your ideal rim. The 15" x 6" design allows for both weight and space savings. Order today for an unbelievable deal while supplies last. (P/N: **S-52000022**)

Help dress the wheels up with a Jeep® hub cap (P/N: **S-52089008**)

Is the front of your CJ sagging with all you extra gear, or just slumping due to age. Try replacing them with these heavy duty 7 layer military wrapped front springs for 1976-86 CJ's.
P/N : **S-J5364230**

Time, heat, cold, and water can damage your hard top side vent windows. We have both left and right side vent windows in stock. Hurry because these will not last long.

OMIX-ADA® LIMITED WARRANTY

3 THREE YEAR MANUFACTURER WARRANTY

If your product is purchased from Omix-Ada® and is not separately warranted by either Omix-Ada® or the manufacturer, then this Limited Warranty gives you specific legal rights and is the only warranty OMIX-ADA® makes in connection with your purchase.* OMIX-ADA® neither assumes nor authorizes any manufacturer, vendor, retailer, other person or entity to assume for it any other obligation or liability in connection with its products or this Limited Warranty.

What Is Covered? Subject to the terms, exclusions and limitations herein and with respect only to products first sold in the United States, OMIX-ADA® warrants to the initial retail purchaser ("purchaser") only that when installed and used on purchaser's vehicle according to supplied product installation instructions and/or warnings, purchaser's OMIX-ADA® product shall be free of defects in material and workmanship for three (3) years. This Limited Warranty shall be measured from the date of initial retail purchase, extends only to the initial retail purchaser and is not transferable. ALL OTHER EXPRESS OR IMPLIED WARRANTIES ARE HEREBY DISCLAIMED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Your warrantor for these parts is OMIX-ADA®, Inc, 460 Horizon Dr., Suite 400 Suwanee, GA 30024(770/614-6101). OMIX-ADA® reserves the right to: (a.) require proof of purchase as a condition of this Limited Warranty-please use warranty registration card, (b.) make future revisions to this product or it's Limited Warranty without obligation to conform existing product or provide purchaser with prior notice.

What Is Not Covered? Your OMIX-ADA® Limited Warranty does not cover damage or claims to any component, vehicle or person other than the OMIX-ADA® product purchased. Your Limited Warranty does not cover damage or claims to any component, vehicle or person OMIX-ADA® determines to have been damaged by or subjected to:

- Inadequate mounting or installation, water, alteration, modification, misuse or failure to maintain.
- Damage in any part attributable to: (a.) vehicle systems or components (including electronic stability control) or (b.) combination with non-OMIX-ADA® products.
- Normal wear and tear/product deterioration.
- Scratches or defects in product finishes or damage due to shipping.
- Accidents, impact by rocks, trees, obstacles or other aspects of the use environment.
- Theft, vandalism or other negligent or intentional damage.

Remedy Limited to Repair / Replacement. The exclusive remedy provided for products covered under this Limited Warranty shall be, upon OMIX-ADA®'s inspection and at OMIX-ADA®'s option, either repair, replacement (with OMIX-ADA® supplied parts) or refund for the product purchase price. Any parts repaired or replaced will be considered part of the original product and will not extend the term of Limited Warranty. Customers requesting warranty consideration should first contact the independent distributor selling your product to obtain a Returned Goods Authorization number. All removal, shipping and installation costs are customer's responsibility. If a replacement part is needed before your part can be returned, you must first purchase the replacement part. Then, if OMIX-ADA® determines the part warrantable, you will be credited the purchase price of that part.

Other Limitations - Exclusion of Damages - Your Rights Under State Law

- In consideration of the purchase price paid, neither OMIX-ADA® nor any independent distributor are responsible for any loss of use or time, rental costs, or for any incidental, consequential, punitive or other damages (whether arising in tort or contract) you may have or incur in connection with your vehicle, or your OMIX-ADA® product. Your exclusive remedy hereunder is, at OMIX-ADA®'s option, repair/replacement or refund as described above.
- This Limited Warranty gives you specific rights. You may also have other rights that vary from state to state. For example, while all implied warranties are disclaimed herein, any implied warranty required by law is limited to the duration and other enforceable terms of Limited Warranty described above. Some states do not allow limitations of how long an implied warranty lasts and /or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations and exclusions herein may not apply to you.

* See exclusive Limited Warranty Terms included with Rugged Ridge® suspension, Winches, wheels, floor liners, Alloy USA® axles/gears and other OMIX-ADA® products at www.omix-ada.com.

Bumpers	143-157	Driving Lights	134	Horn Buttons	214	Seals	136-137, 151, 153	Wamer T14/T15/T18	226
Camshaft Bearings	199	Drum Brake Hardware	176	Horns	195	Seat Belts	141	Wamer T4/T5	228
Camshaft Gears	199	Drum Brake Hold Down Hardware	175	Hose Clamps	211	Seat Frames	142, 144, 146	Wamer T84	226
Camshaft Position Sensors	189	Drum Brake Cable Guides	176	Hoses, Power Steering	214	Serpentine Belts	187	Wamer T90	225
Camshafts	199	Drum Brake Self Adjusting Cables	176	Hub Bearings	173	Shackle Brackets	218-219	Washer Fluid Level Sensors	190
Carburetors	207	Drum Brake Adjusting Hardware	176	Hub Caps	173	Shackles	220	Water Pumps	186
Catalytic Converters	205	Drum Brake Self Adjusting Levers	176	Hub Seals	173	Shift Boots	221-223	Weatherstrip	136-137, 155
Cat-Back Exhaust Kits	205	Drum Brake Self Adjusting Screws	176	Hubs	169, 174	Shift Forks	224-230	Wheel Bearings	167
Choke Cables	207	Drum Brake Shoe Anchor Cams	174	HVAC Door Levers	212	Shift Knobs	225-231	Wheel Cylinders	175
Chrysler 8.25" Axle	167	Drum Brake Shoe Anchor Springs	174	Hydra-Lok	168	Shift Rods	223	Wheel Housings	151-152
Clocks	188	Drum Brake Shoe Anchor Pin Kits	174	Idle Air Control Motors	208	Shocks	218-219	Wheel Studs	164-167, 174
Cluster Gears	229-231	Drum Brake Equalizer Springs	175	Idle Cross Shafts	183	Shovel Bracket	143, 145	Wheels	143-147
Clutch Covers	181	Drum Brake Shoe Cups	175	Idler Pulleys	185	Side Marker Lights	135	Window Cranks	138
Clutch Discs	181	Drum Brake Shoe Springs	175	Ignition Coils	194	Side Mirrors	154, 158	Window Regulators	138
Clutch Fork Boots	183	Drum Brake Shoe Return Springs	175	Ignition Locks	194	Side Panels	142-152	Windshield Frames	133, 142-152
Clutch Forks	183	Drum Brake Springs	176	Ignition Modules	194	Slip Yoke Eliminator	171	Windshield Seals	136
Clutch Kits	181	EGR Valves	208	Ignition Switches	194	Soft Top Seal Hardware	137	Windshield Washer Pumps	232
Clutch Linkage	183	Emergency Brake Cables	180	Ignition Wires	194	Soft Top Seals	137	Wiper Arms	232
Clutch Master Cylinders	182	Emergency Brake Equalizer Bars	180	Inner Door Handles	139	Solenoids	191	Wiper Blades	232
Clutch Pedal Covers	183	Emergency Brake Levers	180	Input Shafts	229-231	Spare Tire Carrier	145-149	Wiper Motors	145, 147, 149, 232
Clutch Pedals	183	Emergency Brake Springs	180	Intake Guides	200	Spark Plugs	194	Wiper Switches	192, 232
Clutch Pilot Bushings	182	Engine Kits	197	Intake Manifold Gaskets	204	Speedometer Cables	188	Wiring Harnesses	191
Clutch Rods	183	Engine Mounts	202	Intake Manifolds	197, 203	Speedometer Gears	188	Yokes	159-170, 221-224
Clutch Slave Cylinders	182	Engine Oil Lines	201	Intake Temperature Sensors	189	Speedometers	188		
Coil Springs	220	Exhaust Clamps	199	Intake Valves	200	Speedometers Gears	221		
Condensers	193	Exhaust Guides	200	Interior Door Handles	141	Spider Gears	159-167		
Connecting Rod Bearings	198	Exhaust Hangers	205	Interior Rearview Mirrors	141	Spindle Nut Socket	160		
Connecting Rods	198	Exhaust Headers	203	Intermediate Pipes	205	Spindles	159-160		
Control Arms	220	Exhaust Insulators	205	Jerry Can Bracket	143-145, 209	Spreader Bars	152		
Cooling Fans	185	Exhaust Manifold Gaskets	204	King Pins	159	Spring Bolts	218-219		
Cowl Panels	142, 144	Exhaust Manifolds	203	Knock Sensors	190	Spring Plates	218-219		
Cowls Seals	136	Exhaust Pipe Gaskets	204	Knuckles	159	Starter Solenoids	191		

WIN A TRIP TO THE 2010 SEMA SHOW IN LAS VEGAS!

FLIGHT | HOTEL | ENTERTAINMENT

GRAND PRIZE WINNER WILL RECEIVE:
ROUND TRIP AIR FARE
4 NIGHTS IN A 4-5 STAR HOTEL
PASS TO NIGHT CLUB & SPA TREATMENT
AND OF COURSE THE SEMA SHOW
AND MUCH, MUCH MORE!

WELCOME TO Fabulous LAS VEGAS NEVADA

5 LUCKY WINNERS WILL GO TO 2010 SEMA SHOW, THE WORLD'S LARGEST AND MOST EXCITING AFTERMARKET EVENT, IN LAS VEGAS AS OMIX-ADA'S GUESTS

REGISTER TO WIN (NO PURCHASE NECESSARY); MUST REGISTER BY SEPT 1, 2010 AT WWW.OMIX-ADA.COM

SEE NEW AND CONCEPTUAL CARS & PARTS IN ACTION!

HIT THE NIGHT LIFE & ENJOY THE VEGAS SCENE!

ENJOY YOUR STAY IN A WORLD FAMOUS RESORT & LUXURIOUS SPA!

SEMA SHOW

NOVEMBER 2-5, 2010
LAS VEGAS CONVENTION CENTER
LAS VEGAS, NEVADA USA
